

**SETTING**

Emergency department

**PATIENT**

You are an 18 year old female with undiagnosed anorexia nervosa who has self presented to an emergency department due to severe heart palpitations which you've never had before. Initially the doctors give you some heart drugs to slow your heart back to a normal rhythm but they also now have an intravenous drip connected to you which you are very anxious about and don't understand. Generally you are very defensive and angry in your interactions with staff and are in denial about having anorexia nervosa or any mental health problems.

**TASK**

- Ask the nurse about why you have a drip running and express fear that it might harm you in some way.
- When the nurse tries to make conversation with you about your eating habits, initially answer some of his/her questions, but fairly quickly become defensive & angrily ask why it's their business to know about your personal habits.
- When the nurse tells you a psychiatric doctor will come to see you, become angry again, protesting that these doctors are only for crazy people and that there is nothing wrong with your mind. Calm down only when the nurse persuades you that that your eating behaviour is now causing very serious problems in your life.

**SETTING**

Emergency department

**NURSE**

An eighteen year old female with undiagnosed anorexia nervosa has presented to your emergency department with an abnormal heart rhythm caused by her poor nutritional status. Cardiac treatment has stabilised her heart but she is still currently receiving a potassium infusion via a drip to prevent further such problems. Other than when she wants you to explain treatment to her, she is defensive and angry to communicate with and in denial that she has any kind of eating disorder or mental health issues.

**TASK**

- Reassuringly answer her anxious questions about the intravenous drip being given to stabilise her electrolytes.
- Tactfully ask her about her eating habits and food intake, emphasising your therapeutic aims for asking these questions.
- Advise her that a mental health doctor will come to see her soon and, when she becomes angry about having to see a 'doctor for crazy people', try to persuade her of the importance of dealing with her mental health/eating issues to prevent such life threatening hospital admissions.

**Medical English as a Lingua Franca** M. Gregory Tweedie, Robert C. Johnson, 2022-02-21 In this first book length treatment of MELF the authors assert that MELF represents an important contribution to our understanding of English as a Lingua Franca ELF in that existing ELF research has been limited to relatively low stakes communicative situations such as interactions in business academia internet blogging or casual conversations Medical contexts in contrast often represent situations calling for exceptional communicative precision and urgency Providing both evidence from their own research and analysis from the limited number of existing studies the authors offer a counterpoint to the optimism regarding communicative success prevalent in ELF The book proposes a theoretical perspective on how the various features of healthcare communication serve as important variables in shaping interaction among speakers of ELF further enlarging our understanding of this emerging sub field

**Occupational English Test** OET Centre, 2007 The Occupational English Test OET is a language test for overseas qualified health professionals The Test measures the language competency of health professionals who are seeking registration and the ability to practice in an English speaking context from website *Occupational English Test Centre* OET, 2007

[OET Writing for Nurses Guide V2](#) IELTS Medical Ltd, 2019 *Fairness, Justice and Language Assessment* Tim McNamara, Ute Knoch, 2019-02-21 This book has two goals each related to the validity of language assessment The first goal

is to explore the difference between fairness and justice in language assessment The authors distinguish internal and external dimensions of the equitable and just treatment of individuals taking language tests which are used as gatekeeping devices to determine access to education and employment immigrant status citizenship and other rights The second goal is to show how the extent of test fairness can be demonstrated and improved using the tools of psychometrics in particular the models collectively known as Rasch measurement This book will have an enormous impact on the field of language assessment Using Rasch analysis models to explore and identify sources of unfairness the authors make a compelling case for fairness in the design and implementation of language assessment instruments and for justice in the interpretation and use of test results A real strength of the book is that it guides readers through analytical techniques in an accessible way Dan Douglas Professor Emeritus Applied Linguistics Program Iowa State University
