Offshoring Secrets

Offshoring Secrets Utkarsh Rai,2007 In this book years of experiences and interactions with industry experts are drawn upon to suggest ways to set up and run an India operation The author shares solutions to numerous day to day problems that managers in the parent offices face and describes the issues faced by managers in India and their frustrations in dealing with their counterparts in the parent company

Offshoring John Urry,2014-06-05 The concealment of income wealth and profits in tax havens has brought the topic of offshoring into public debate but as John Urry shows in this important new book offshoring is a much more pervasive feature of contemporary societies These often secretive activities offshore also involve relations of work finance pleasure waste energy and security Powerful and pervasive offshore worlds have been generated posing huge challenges both for governments and for citizens This book documents the various patterns of offshoring of the economy sociability politics and the environment In each case offshoring generates new patterns of power reduces the responsibilities of the powerful offshore class and limits the conditions for democratic governance Offshore out of sight over the horizon are some of the troubling processes and metaphors by which much life has been rendered opaque and dependent upon secrets and lies By analysing these patterns and processes Urry sheds fresh light on the hidden worlds of offshoring and exposes the dark side of globalization The book concludes by considering whether offshoring can be reversed whether it is possible to bring about the systematic reshoring of relations that would be good for democracy and for developing low carbon futures Urry portrays the coming century as being poised between even more extreme offshoring and various endeavours to bring back home that which has currently escaped over the horizon

IT outsourcing Remi Vespa,

Global Warming Mitchell Levy,2008 2007 was a turning point in the consciousness of the planet It was a turning point where we no longer asked the question Is global warming real but perceived global warming as reality Ok so if we now believe what can we do about it Some answers are contained in this book The real answers however will unfold over the next couple of years We need to act we need to invest we need to change we need to invest in protecting the future
