### **Chronicles of Care: A Design History of the COVID-19 Virus** Paul A. Rodgers, Fernando Galdon, Craig

Bremner, 2024-04-16 The Covid 19 crisis and the designed interventions that the authors have catalogued in this book prove definitively that design does care. The authors documented this as it evolved every day from the 1st January 2020 to 31st May 2020 inclusive. Then they looked at all of this care and caring from the point of view of design and by the sheer volume of design interventions they have documented illustrate that design is good in a crisis. What the Covid 19 pandemic illustrated is that for the first time in modern history capital was totally irrelevant. Money could not save your life. Only design could. Rapidly designed masks, shelters, hospitals, instructional posters, infographics, dashboards, respirators, sanitisers, virtual and local communities emerged to save us. From January 2020 design became king. The Covid 19 global pandemic presented an ontological reality: design is more than margins or profit. In fact, design became extremely valuable when it stopped concentrating on those things and started to care about people's lives. This brief episode in history is still repositioning the status of design and reconfiguring its signifier from consumption to care. The contents of this book cover the outbreak, lockdown, and the beginning of the reopening in the UK. In between, the book functions as a history of pandemic crisis design interventions. As such, it is a research in the moment project where we have illustrated our thoughts and insights in tables, charts, and diagrams. We have accepted all design interventions as valid and given them the same role and status by presenting each of them in a standard format. No curation. No selection. No position. The task of critical analysis must follow perhaps by us, certainly by others.

Gaslight Miles Joris-Peyrafitte, Sara Shepard, 2024-09-17 From Sundance Award

winning filmmaker and podcast creator Miles Joris Peyrafitte and 1 New York Times bestselling author Sara Shepard. *Gaslight* is a tense thriller that dredges the inner workings of cults, the susceptibility of young minds, and the fragility of both friendship and marriage. Rebecca is living a peaceful life in Nevada with her husband Tom and their two young children. Her past is in the past, and she does a good job of keeping it there until her old friend Danny shows up on the doorstep one morning, throwing her sweet family life into turmoil. Danny is nothing but a reminder of what Rebecca fled all those years ago, and all the secrets she's keeping from Tom. She tries her hardest to manage the situation and figure out what Danny wants, but all Rebecca seems to find are layers upon layers of deception. That deception has a lot to do with ISB, the cult Danny has been part of for ten years, a group of spiritual seekers living deep in the woods, cut off from their families and friends, led by a charismatic leader who's a master at manipulation and mind control. Is Danny here because she's trying to break free from the cult? Or is she on a recruiting mission? It's hard for Rebecca to know when Danny's telling the truth and when she's lying, but one thing's for sure: her presence might just blow up Rebecca's life. As she scrambles to figure out Danny's intentions, Rebecca begins to lose sight of the people she loves most, and the danger closing in on them all.
