Hi, AI! How Human Ingenuity and Artificial Intelligence Are Transforming the Marketing Universe

Antonio Pagano, Claudio GPT, 2024-09-18 Do you think marketing today is the same as it was twenty years ago How about ten years ago Five years ago The reality is that marketing is changing faster than ever before What worked six months ago may be completely ineffective today That's why visionary marketer Antonio Pagano decided to team up with Claudio a prodigy AI assistant to write this groundbreaking book Antonio and Claudio tell the compelling semi serious story of how AI is revolutionizing marketing and business In their groundbreaking new book this unusual duo showcases how AI allows a single person to do the work of an entire marketing department Gone are the days of needing huge teams and agencies now anyone can leverage AI to transform their marketing For example AI can help write engaging social media posts analyze customer data to optimize campaigns and automate repetitive tasks like reporting This book itself demonstrates the power of human and AI collaboration Together Antonio and Claudio wrote and marketed the book in a fraction of the time and effort it would have taken Antonio alone using traditional methods The book includes real case studies simulations and a toolbox for immediate implementation to change how you see and do marketing Drawing on real world examples they outline how AI can create content analyze data automate tasks and more The authors make a compelling case that AI is already changing how business is done For modern marketers and entrepreneurs leaning into AI is not just beneficial but necessary to stay competitive and relevant This engaging forward looking book is a must read for anyone interested in leveraging AI to work smarter and faster Antonio and Claudio demonstrate the immense possibilities when humans and AI collaborate Their semi serious story envisions a future where AI empowers us all to achieve our dreams and perhaps even change the world for better

Artificial intelligence and education

Wayne Holmes, Jen Persson, Irene-Angelica Chounta, Barbara Wasson, Vania Dimitrova, 2022-11-30 Ensuring that AI empowers educators and learners not over empowers them and that future developments and practices are truly for the common good Artificial intelligence AI is increasingly having an impact on education bringing opportunities as well as numerous challenges These observations were noted by the Council of Europe's Committee of Ministers in 2019 and led to the commissioning of this report which sets out to examine the connections between AI and education AI and it provides a critical analysis of the academic evidence and the myths and hype The Covid 19 pandemic school shutdowns triggered a rushed adoption of educational technology which increasingly includes AI assisted classrooms tools AIED This AIED which by definition is designed to influence child development also impacts on critical issues such as privacy agency and human dignity all of which are yet to be fully explored and addressed But AI ED is not only about teaching and learning with AI but also teaching and learning about AI AI literacy addressing both the technological dimension and the often forgotten human dimension of AI The report concludes with a provisional needs analysis the aim being to stimulate further critical debate by the Council of Europe's member states and other stakeholders and to ensure that education systems respond both proactively and effectively to the numerous opportunities and challenges introduced by AI
