    PERSONALITY DISORDER I don't care what you think unless it is about me. Kurt Cobain. The words of the late American musician are in a nutshell what a Narcissist believes. They are the center of the universe. The sun rises and sets because of them. Nothing else matters but themselves. Do you or someone you know suffer from Narcissism? Narcissistic Personality Disorder (NPD) is a condition in which the individual has an inflated sense of importance. He or she is beyond vain to the point that they are completely obsessed and engrossed with none other than themselves. A Narcissist is mentally unable to recognize or even care when their own self-absorbed tendencies are causing great harm to others. Sound familiar? Hitler, Stalin, and even some of the rich and famous celebrities we all know and love are Narcissists. Perhaps you or a loved one is too. If so or even if you just want to learn more about the intriguing condition, you simply must read this book. You won't believe how extreme this personality disorder can be taken. Remember World War II? It was a direct result of the Narcissistic behavior of the infected one man but impacted the entire world. Yes, it's that powerful. In this book, you will not only learn about the disease but also how to diagnose yourself or others and what if anything can be done about it. Find out the three top contributors that can lead to the disorder and explore the question: Can Narcissism be prevented? Where is the fine line drawn?

between a person who is vain seeking recognition and prestige and one who truly suffers from the full blown mental disability of Narcissistic Personality Disorder that affects one percent of the population What traits do they share and what ones set them worlds apart As you read this compelling Book you may begin to ask yourself if you could possibly have the condition and if so would you be too wrapped up in your egotistical beliefs to even see it Are you too blind to see This book takes it to the limit not only giving you all the factual information you could hope for but practical information and examples as well It will captivate your interest to the point that you will just may take a whole new look at yourself and those around you Without wasting another minute get ready for a great read with a world of excellent information presented in a whole new and different way You won t want to put this book down as you learn about NPD its characteristics its victims and how it can infect or affect you And if you are thinking that you don t have it and no one you knows has it so the condition is irrelevant to you remember Ann Burr and all the others on Ted Bundy s list They thought the same thing If you suspect that you may suffer from NPD or that someone you know does reading this book is not only a good idea it is your obligation How many lives might have been saved and other sufferings been avoided had someone only done something to help in the NPD cases throughout history Don t be afraid be informed Without further ado let s get started Go to the top of the page and click the orange Add To Cart button on the right to order now because this book will save your life

Richard Ries, 1996-09     [Critique of the Narcissistic Personality Inventory \(NPI\) in terms of its reliability, validity and other psychometric issues](#) Sal Susu, 2021-01-27 Scientific Essay from the year 2020 in the subject Psychology Personality Psychology grade A language English abstract

This word is a critique of the Narcissistic Personality Inventory NPI in terms of its reliability, validity and other psychometric issues. The Narcissistic Personality Inventory NPI is a test that was developed by Raskin and Hall 1979 in order to measure the personality trait of narcissism for research in social psychology. It is the most commonly used test to measure Narcissism in fact it is used in over 75% of studies on Narcissism and is based on the definition found in the third edition of the Diagnostic and Statistical Manual of Mental Disorders. Research suggests that there are two variants of Narcissism Grandiose narcissism which is characterized by arrogance over inflation of one's qualities such as talent or intelligence, sense of entitlement as well as the tendency to denigrate others in order to boost their own self esteem. Vulnerable Narcissism on the other hand is characterized by self inhibition and the desire for approval by others and emotional instability but vulnerable narcissists still have unrealistically high expectations of themselves such as the attainment of unlimited power and money and personal features such as beauty. The NPI was not meant to be used for diagnostic purposes that is for the clinical diagnosis of Narcissistic Personality Disorder which is a mental illness characterized by an extremely fragile sense of self and significant life impairments. This disorder is generally assessed by using other tests such as the Pathological Narcissism Inventory PNI. The NPI is intended to measure the normal sub clinical levels of narcissism that can be commonly found among the general population. This means that even if an individual obtains a high score on the NPI it may not mean that they have Narcissistic Personality Disorder per se.
