## National Cafeteria Workers Day 2015:

**A New American Labor Movement** William E. Scheuerman,2021-10-01 The American labor movement isn't dead. It's just moving from the bargaining table to the streets. In **A New American Labor Movement** William Scheuerman analyzes how the decline of unions and the emergence of these new direct action movements are reshaping the American labor movement. Tens of thousands of exploited workers from farm laborers and gig drivers to freelance artists and restaurant workers have taken to the streets in a collective attempt to attain a living wage and decent working conditions with or without the help of unions. This new worker militancy expressed through mass demonstrations, strikes, sit-ins, political action, and similar activities has already achieved much success and offers models for workers to exercise their power in the twenty-first century. Finally, Scheuerman notes many of the strategies of the new direct action groups share features with the sectoral bargaining model that dominates the European labor movement, suggesting that sectoral bargaining may become the foundation of a new American labor movement.

Kumaraswamy, 2021-08-26 This volume brings together established and emerging scholars from academia and think tanks to reflect on important conceptual, strategic, and developmental issues in India's national security. It provides a comprehensive understanding of national security through a more open approach, covering both traditional and non-traditional concerns that have a bearing on the survival and well-being of humanity. It discusses key themes such as perceptions about China, civil-military relations, gender and military, nuclear safety, arms trade, and cybersecurity, human security, food and water security, soft power, and the media's role in covering security issues. As a festschrift for Commodore C. Uday Bhaskar, it highlights and adds to his scholarly contributions to the national security debate in the country for the past three decades. A unique contribution, this volume will be indispensable for students and researchers of politics and international relations, national security, human security, geopolitics, non-traditional security, military and strategic studies, and
