*Using Technology to Sell* Jonathan London, Martin Lucas, 2013-03-15 *Using Technology to Sell* is filled with practical effective techniques to sell more by leveraging the plethora of tools and information in today's world. By applying these principles you'll open more doors, increase your productivity, speed up decisions and close more deals. Jill Konrath, author of *SNAP Selling* and *Selling to Big Companies*, *Using Technology to Sell* Tactics to Ratchet Up Results shows salespeople and sales managers the most effective ways to leverage a variety of technologies to increase sales and gain more customers. Topics include making the most of cloud-based customer relationship management software, putting social media to the best use, presenting on three continents simultaneously through advanced video conferencing, using advanced techniques to gain an information edge over competitors and much more. As this book shows, while the sales process will remain pretty much the same from now until the end of time, technology used properly can increase sales power at every step of the cycle. Technology in the right hands is a strategic weapon and a competitive differentiation tool that can dramatically improve close rates, deal size, efficiency, total sales and much more. *Using Technology to Sell* will show you how to expand your market through the use of technology, employ software as a service (SaaS) applications to keep track of customers, stay organized, present and sell more systematically, use social media to increase sales, maintain the personal element in a world wired with technology, use the best sales methodology and integrate each step with technology, overcome any aversion to using technology to sell, avoid the trap of overuse or dependency on technology.
