Edelman, Carol Lynn Mandle, Elizabeth C. Kudzma, 2013-01-01 Up to date and easy to read this textbook provides comprehensive coverage of all major concepts of health promotion and disease prevention It highlights growth and development throughout the life span emphasizing normal development as well as the specific problems and health promotion issues common to each stage All population groups are addressed with separate chapters for individuals families and communities Provided by publisher **Fad Diets and Adolescents** Maya Michelle Kumar, Alicia Dixon

Docter, 2022-11-15 Fad diets have influenced our society for hundreds of years While they are heterogeneous in nature they make many of the same promises weight loss fat burning muscle building flatter stomachs improved gut health clearer skin and protection of animal rights and the environment Not only are fad diets usually ineffective they are often highly restrictive and associated with significant health risks Furthermore the practice of fad dieting dramatically increases one's risk of developing malnutrition and or an eating disorder Adolescence is a period of rapid physical and socioemotional growth during which young people become more vulnerable to poor body image and low self esteem which may make adolescents particularly likely to adopt fad diets However the nutritional risk incurred could result in serious and potentially permanent impairment of physical and psychosocial development This book provides an overview of fad diets through the ages highlighting what all fad diets have in common and how to recognize a fad diet Readers will learn what science tells us about nutritional needs during adolescence for normal physical cognitive and socioemotional development and the risks that may be incurred if a fad diet prevents an adolescent from meeting these needs This book examines why adolescents may be particularly prone to fad dieting and why they may also have more to lose if they adopt them Readers will explore factors that

shape adolescent diet culture This book makes specific recommendations for caring adults in the lives of adolescents including interdisciplinary health care providers teachers coaches trainers parents and other caregivers to steer adolescents away from fad diets and towards healthier alternatives for achieving their goals The initial chapters are didactic chapters that outline core material Subsequent chapters use illustrative case examples to teach the reader how to screen adolescents for fad dieting listen to the concerns that attracted them to the diet engage them in a discussion about their goals and collaborate with them to find a healthier path All chapters conclude with discussion questions for further reflection
