Headlines That Matter Kavita Chandran, Saldene Lyte, 2025-08-01 An in depth exploration of how breaking news affects investor sentiments and trader decisions and ultimately the stock market. Glued to their screens for news alerts financial traders must quickly decipher which ones are most reliable in order to make effective trading decisions. Journalists know that the headlines they craft must instantly grab the attention of a trader. This book focuses on the relatively unknown Headlines desk in newswire services where journalists type breaking news for subscribers and the public. Drawing on their experiences as former Bloomberg headline writers Chandran and Lyte reveal the processes of these teams that deftly link the two sides of news information and interpretation. The insights this book offers will benefit students of both business journalism and finance as well as CEOs corporate communications directors wealth managers investors and traders

A Student's Guide to Socialism Paul H. Rubin, 2020-08-25 Whenever socialism has been tried it has led to failure and often great human misery. Nonetheless many young people prefer socialism to capitalism. There are dozens of books and articles explaining the failures of socialism but these do not seem to have an impact on students. One reason for this may be that the books are written in abstract terms and do not relate to the lives of the readers. This book takes a different approach. It asks the question What will my life be like if I live under socialism? Professor Paul Rubin a leading expert on socialism and capitalism shows that under socialism People will be poorer. There will be less freedom. Goods will be of lower quality but more expensive. There will be less innovation. The environment will be in worse shape. He also shows that the U.S. is the most productive and richest country that has ever existed and that the current level of wealth in the U.S. is due to capitalism. Lastly he demonstrates that many critiques of capitalism such as it leads to excessive inequality are mistaken or ill founded. Professor Rubin points out an important paradox. The young people who are the sharpest critics of capitalism are themselves highly dependent in their daily lives on the products of capitalism. These include computers themselves mobile phones Amazon Facebook Instagram Uber Skype Spotify computer games and almost any other modern product. Additionally the creators of these products are among the millionaires and billionaires despised by socialists
