How to Find a Black Cat in a Coal Cellar Joseph Buchdahl,2013-01-25 How do we know if we can beat the bookmaker That s easy just look at our bank balance But how do we know if we ve not just been lucky More specifically how do we know that someone who says he can do it and who is selling his expertise can keep doing it again and again through talent skill and hard work This book examines the techniques available to answer that question to identify those qualities and to help the punter find value for money in an industry that appears to be largely built on trust and the influence of chance to uncover the truth about sports tipsters and ultimately how to find the best tipsters the Black Cats

Sports Forecasting Martin Spann,Bernd Skiera,2014 This article compares the forecast accuracy of different methods namely prediction markets tipsters and betting odds and assesses the ability of prediction markets and tipsters to generate profits systematically in a betting market We present the results of an empirical study that uses data from 678 837 games of three seasons of the German premier soccer league Prediction markets and betting odds perform equally well in terms of forecasting accuracy but both methods strongly outperform tipsters A weighting based combination of the forecasts of these methods leads to a slightly higher forecast accuracy whereas a rule based combination improves forecast accuracy substantially However none of the forecasts leads to systematic monetary gains in betting markets because of the high fees 25% charged by the state owned bookmaker in Germany Lower fees e g approximately 12% or 0% would provide systematic profits if punters exploited the information from prediction markets and bet only on a selected number of games **How to Find a Black Cat in a Coal Cellar** Joe Buchdahl,2013-07-01 How do we know if we can beat the bookmaker That s easy just
