*Our Common Future* World Commission on Environment and Development, 1987 Most of today's decision makers will be dead before the planet suffers the full consequences of acid rain global warming ozone depletion widespread desertification and species loss Most of today's young voters however will be alive In this perhaps the most important document of the decade on the future of the world the urgency of changing certain policy decisions some of which threaten the very survival of the human race is made abundantly clear The World Commission on Environment and Development headed by Gro Harlem Brundtland Prime Minister of Norway was set up as an independent body in 1983 by the United Nations Its brief was to re-examine the critical environment to develop proposals to solve them and to ensure that human progress will be sustained through development without bankrupting the resources of future generations In *Our Common Future* the Commission serves notice that the time has come for a marriage of economy and ecology so that governments and their people can take responsibility not just for environmental damage but for the policies that cause the damage It is not too late to change these policies but it warns we must act now *Innovation, Ethics and our Common Futures* Rafael Ziegler, 2020-06-26 The important yet contradictory role of innovation in society calls for a philosophy of innovation Critically exploring innovation in relation to values the economy and social change Rafael Ziegler proposes a collaborative theory and practice of innovation that aims to liberate possibilities for our common futures **Moral Pressure for Responsible Globalization** Sherrie M. Steiner, 2018-03-06 In *Moral Pressure for Responsible Globalization* Sherrie M Steiner offers an account of religious diplomacy with the G8 G7 and G20 to evoke new possibilities in an effort to influence globalization to become more equitable and sustainable Commonly portrayed as out of control globalization is considered here as a political process that can be redirected to avoid the tragedy of the global commons The secularization tradition of religion depicts faith based public engagement as dangerous Making use of historical materials from faith based G plus System shadow summits 2005 2017 Steiner provides ample information to arrive at an interpretation that significantly differs from traditional accounts Using broader scope conditions Steiner considers how human induced environmental changes contribute to religious resurgence under conditions of weakening nation states **Qur'anic Guidance for Good Governance** Abdullah al-Ahsan, Stephen B. Young, 2017-08-06 This book is a study of religious principles of good governance in our contemporary societies Historically religion has provided guidance for organizing societies In modern times however religious ideas have been marginalized in social science literature Contributors to this work explore what values and practices the Qur'an can contribute to governing our economic political and social life today *The Earth Brokers* Pratap Chatterjee, Matthias Finger, 2014-02-04 Those of us who have watched the process have said that the Earth Summit has failed Multinational corporations the United States Japan the World Bank the International Monetary Fund have got away with what they always wanted the Summit has ensured increased domination by those who already have power Worse still it has robbed the poor of the little power they had It has

made them victims of a market economy that has thus far threatened our planet few negotiators realised how critical their decisions are to our generation By failing to address such fundamental issues as militarism the regulation of transnational corporations the democratisation of international aid agencies and the inequitable terms of trade my generation has been damned Wagaki Mwangi Kenyan Youth delegate to the Earth Summit      **The Top 50 Sustainability Books** Wayne

Visser,2017-09-08 This unique title draws together in one volume some of the best thinking to date on the pressing social and environmental challenges we face as a society These are the Top 50 Sustainability Books as voted for by the University of Cambridge Programme for Sustainability Leadership s alumni network of over 3 000 senior leaders from around the world In addition to profiles of all 50 titles many of the authors share their most recent reflections on the state of the world and the ongoing attempts by business government and civil society to create a more sustainable future Many of these authors have become household names in the environmental social and economic justice movements from Rachel Carson Ralph Nader and E F Schumacher to Vandana Shiva Muhammad Yunus and Al Gore Others such as Aldo Leopold Thomas Berry and Manfred Max Neef are relatively undiscovered gems whose work should be much more widely known By featuring these and other seminal thinkers The Top 50 Sustainability Books distils a remarkable collective intelligence one that provides devastating evidence of the problems we face as a global society yet also inspiring examples of innovative solutions it explores our deepest fears and our highest hopes for the future It is a must read for anyone who wants to tap into the wisdom of our age
