**Facebook Nation** Newton Lee, 2012-09-15 President Barack Obama in his 2011 State of the Union Address called America the nation of Edison and the Wright brothers and of Google and Facebook U S Chief Information Officer Steven VanRoekel said that America has become a Facebook nation that demands increased transparency and interactivity from the federal government Facebook as a nation in 2012 would be the third largest country in the world with over 900 million citizens after China and India This book portrays the social media ecosystem as a world of increasing Total Information Awareness which is essentially a civilian version of the controversial Total Information Awareness program unveiled in 2002 by the Defense Advanced Research Projects Agency DARPA at the U S Department of Defense Back in the 60 s DARPA initiated and funded the research and development of Advanced Research Projects Agency Network ARPANET that went online in 1969 The success of ARPANET gave rise to the global commercial Internet in the 90 s

and the new generation of Fortune 500 companies today including Amazon com Google eBay and Yahoo As if life comes full circle in the 21st century private businesses and the ubiquity of social networks such as Facebook Google Twitter and YouTube are creating the technologies and infrastructures necessary for the DARPA proposed Total Information Awareness program WikiLeaks founder Julian Assange called Facebook the most appalling spying machine that has ever been invented Indeed military and civilian technologies have interwoven into every fabric of our society as Facebook co founder and CEO Mark Zuckerberg said We exist at the intersection of technology and social issues This book offers discourse and practical advice on the privacy issue in the age of big data the rise of Facebook nation and Total Information Awareness Opening with President Ronald Reagan s 1984 National Security Decision Directive and ending with George Orwell s novel 1984 the author takes us on a roller coaster ride through Facebook s botched IPO Carrier IQ Kony 2012 SOPA PIPA blackout cyber bullying crime fighting and a host of other timely issues facing our Facebook nation Social media strategists information architects social scientists policymakers and academic scholars in the Program in Science Technology and Society STS will find this book a valuable asset

*iTake-Over* David Ardit, 2020-06-23 The second edition of *iTake Over* The Recording Industry in the Streaming Era sheds light on the way large corporations appropriate new technology to maintain their market dominance in a capitalist system To date scholars have erroneously argued that digital music has diminished the power of major record labels In *iTake Over* sociologist David Ardit suggests otherwise adopting a broader perspective on the entire issue by examining how the recording industry strengthened copyright laws for their private ends at the expense of the broader public good Ardit also challenges the dominant discourse on digital music distribution which assumes that the recording industry has a legitimate claim to profitability at the expense of a shared culture Ardit specifically surveys the actual material effects that digital distribution has had on the industry Most notable among these is how major record labels find themselves in a stronger financial position today in the music industry than they were before the launch of Napster largely because of reduced production and distribution costs and the steady gain in digital music sales Moreover instead of merely trying to counteract the phenomenon of digital distribution the RIAA and the major record labels embraced and then altered the distribution system
