religious rituals that are not understood in today's materialistic modern science. The mystic prayer technique that this book is advocating uses the spoken word along with positive imagination and visualization to invoke and harness this power of cosmic energies or pranas. This book goes into detail on the ancient science for manipulating the five major pranas that flow through our subtle bodies and gross physical body. The technique also uses pranayama techniques, an ancient method of breath control that allows man to control the flow of prana that enters and exits the body's psychic centers, Chakras. The prayer technique also incorporates mudra yoga that assists the prayer practitioner in sealing and redirecting pranas so that they can be impregnated with a mind substance that has the purpose and direction of the intended target. *Science Digest*, 1975 **Media Review Digest** C Edward Wall, 2005-08 **Enhanced Occupational Outlook Handbook** Jist Works, 2008-07.
