Business Resilience and Business Innovation for Sustainability Abdalmuttaleb M. A. Musleh Al-Sartawi,Abdulnaser Ibrahim Nour,Islam Abdeljawad,2026-01-01 This book is timely as it explores the double edged nature of disruptive technologies in providing both challenges and opportunities for businesses in the age of digital transformation Business resilience has two major forms related to timescales Both kinds of resilience are identified as key for delivering sustainable development The opposite is also found to be true Both are needed to deliver either and to let businesses survive and grow Sustainability is increasingly a strategic issue for firms seeking sustainable competitive advantage It has been driven by stakeholder legislative and cost changes including natural resource constraints Frizzo Barker et al 2020 Business resilience has also been of interest recently due to the unpredictable effects of globalization and economic turbulence and in response to changing social limitations on and expectations of companies The topic of sustainable development has become ubiquitous in the last 30 years Henderson and Loreau 2023 yet how to achieve such a goal or whether it is even possible remains a major unknown This book attempts to provide a platform for researchers and practitioners to discuss sustainability in light of the eruption of disruptive

technologies legislations regulations and stakeholder demands This book's purpose is twofold it aims to explore artificial intelligence and digital transformation implications for achieving business resilience and business innovation Second it aims to cover unique and variety of interdisciplinary topics in the challenges and opportunities of disruptive technologies and how these advanced technologies can be implemented to contribute toward sustainable development goals and sustainability Consequently to address the aims of the book it seeks exploratory empirical interpretive and theoretical research built on either primary or secondary data The approaches suggested are not exhaustive and can be extended upon by the researchers In addition the book contributes toward the UN's sustainable development goals

[Artificial Intelligence for Financial Risk Management and Analysis](#) Derbali, Abdelkader Mohamed Sghaier, 2025-04-08

The revolution of artificial intelligence AI impacts various business sectors including accounting and finance Machine intelligence is on the rise in human interaction as novel technologies automate tasks and enhance human capabilities at an increasingly rapid rate While AI has the potential to assist in the identification and management of risks such as in financial risk measurement analysis and management the disruptive nature of these emerging technologies introduces new and complex scenarios Utilizing these technologies to facilitate decision making processes could result in biased inequitable and

unreliable decisions giving rise to concerns regarding data privacy and security. Further research is necessary to understand the implications of AI in financial practices. *Artificial Intelligence for Financial Risk Management and Analysis* delves into the most recent advancements in AI technologies that facilitate risk analysis and decision making. It examines the potential risks these technologies pose to individuals, businesses, and establishments. Covering topics such as firm management automation and long short term memory LSTM networks this book is an excellent resource for financial advisors, banking professionals, computer scientists, professionals, researchers, academicians, and more.

Controversial Encounters in the Age of Algorithms Sine N. Just, 2024-11-27 This book explores how digital technologies shape our opinions and interactions often in ways that limit our exposure to diverse perspectives and therefore can fuel polarization. Drawing on the ancient art of controversy, arguing all sides of a case, it offers a way to revive public debate as a source of trust and legitimacy in our society.

Qualitative Research Methods for Media Studies Bonnie S. Brennen, 2025-01-20 This fully updated fourth edition provides students and researchers with the tools they need to perform critically engaged, theoretically informed research using methods that include interviewing, focus groups, historical research, oral histories, textual analysis, ethnography, and participant observation and digital ethnography and netnography.
