University Rankings, Diversity, and the New Landscape of Higher Education, 2019-02-18 University rankings are a relatively new phenomenon in higher education. Although quite an established practice in the US it is only within the last decade that attempts to analyse university performance have spread to the rest of the world and that we also have seen new global rankings appear. Rankings attempting to measure university performance beyond national borders. No wonder that this trend is accompanied by a growing interest in studying rankings throughout the world. This book is written as part of the effort to better understand rankings and their effects on higher education. A serious approach towards university rankings implies that rankings should be analysed properly including the methods used and the indicators chosen and investigate the objectives claimed. If university rankings are considered as consumer information then everyone should have an interest in basing such guidance on valid and reliable data and methodology. A serious analysis should also discuss the wider implications of rankings as an emerging phenomenon in higher education. Consequently the contributions to this book investigate and analyse how different rankings work, how they reach their conclusions and on what data and methodology they are built. Furthermore it provides a critical reflection about the impact of rankings on higher education how and in what way rankings influence policy making the structure of the sector or the internal life of the sector.

The Global Academic Rankings Game Maria Yudkevich, Philip G. Altbach, Laura E. Rumbley, 2016-03-02 The Global Academic Rankings Game provides a much needed perspective on how countries and universities react to academic rankings. Based on a unified case methodology of eleven key countries and academic institutions this comprehensive volume provides expert analysis on this emerging phenomenon at a time when world rankings are becoming increasingly visible and influential on the international stage. Each chapter provides an overview of government and national policies as well as an in depth examination of the impact that rankings have played on policy practice and academic life in Australia, Chile, China, Germany, Malaysia, the Netherlands, Poland, Russia, Turkey, the United Kingdom and the United States. The Global Academic Rankings Game contributes to the continuing debate about the influence of rankings in higher education and is an invaluable resource for higher education scholars and administrators as they tackle rankings in their own national and institutional contexts.

World University Rankings and the Future of Higher Education Downing, Kevin, Ganotice, Jr., Fraide A., 2016-10-06 Delivering quality education to students while remaining competitive at an international level is only one of the many challenges universities face today. To attain their goals universities must adopt new strategies to achieve academic excellence. World University Rankings and the Future of Higher Education is a pivotal reference source for the latest scholarly research on the implementation of a ranking system for higher education institutions providing a thorough overview of the impacts of these rankings on educational quality. Exploring the benefits and challenges of this system in a global context this book is ideally designed for academicians, researchers, students, administrators and policy makers interested in the effects of

Pacific ,2009 *Global University Rankings* T. Erkkilä,2013-09-26 Global University Rankings explores the novel topic of

global university rankings and their effects on higher education in Europe The contributions in this volume outline different discourses on global university rankings and explore the related changes concerning European higher education policies disciplinary traditions and higher education institutions The first global university rankings were published less than a decade ago but these policy instruments have become highly influential in shaping the approaches and institutional realities of higher education The rankings have portrayed European academic institutions in a varying light There is intense

reflexivity over the figures leading to ideational changes and institutional adaptation that take surprisingly similar forms in different European countries The contributions in this book critically assess global university rankings as a policy discourse that would seem to be instrumental to higher education reform throughout Europe

Globalisation and Education Reforms

Joseph Zajda,2018-02-27 This book explores the interrelationship between ideology the state and education reforms placing it

in a global context It examines some of the major education reforms and policy issues in a global culture particularly in light of recent shifts in quality and standards driven education and policy research The book critiques the neo liberal ideological imperatives of current education and policy reforms and illustrates the way the shifts in the relationship between the state and education policy affect current trends in education reforms and schooling globally With this as its focus the book s

individual chapters highlight hand picked scholarly research on major discourses in the field of comparative education A compendium of the very latest thinking on the subject the book like the other volumes in the series offers a state of the art sourcebook for researchers practitioners and policymakers alike Not only do the chapters offer a timely overview of current issues affecting comparative education and education policy research in what is now a global educational culture they also

outline future directions that education and policy reforms could take By doing so they provide a comprehensive picture of the intersecting and diverse discourses of globalisation and policy driven reforms in education Individual chapters critically assess the dominant discourses and debates on education and policy reforms Using diverse comparative education paradigms

from critical theory to historical comparative research they address globalisation ideology and democracy and examine both the reasons for and outcomes of education reforms and policy change As such they provide an informed critique of models of quality and standards driven education reforms that are informed by Western dominant ideologies and social values
