Memory and Manuscript Birger Gerhardsson, 1998 Here in one volume are two of Birger Gerhardsson s much debated works on the transmission of tradition in Rabbinic Judaism and early Christianity In *Memory and Manuscript* 1961 Gerhardsson explores the way in which Jewish rabbis during the first Christian centuries preserved and passed on their sacred tradition and he shows how early Christianity is better understood in light of how that tradition developed in Rabbinic Judaism In *Tradition and Transmission in Early Christianity* 1964 Gerhardsson further clarifies the discussion and answers criticism of his earlier book This Biblical Resource Series combined edition corrects and expands Gerhardsson s original works and includes a new preface by the author and a lengthy new foreword by Jacob Neusner that summarizes the works importance and subsequent influence *The First Christian Century in Judaism and Christianity* Samuel Sandmel, 1969

The Jewish Bible and the Christian Bible Julio Treballe Barrera, 2023-03-20 This wide ranging handbook presents an overview of our current knowledge on the history of the Bible Divided into three parts it shows how the collections of canonical and apocryphal books were formed explains the transmission and translation of the Biblical texts and describes biblical interpretation in Judaism and Christianity Incorporating the immense amount of information that has become available since the discovery of the Dead Sea Scrolls the author sets out to bridge the gaps between widely different areas and trends in the field of Biblical Studies canonical and apocryphal literature written and oral traditions rabbinic and Christian exegesis and modern critical exegesis and literal and allegorical interpretation among others Uniquely Treballe Barrera also looks at the *Wirkungsgeschichte* of the Bible in relation to the Greek and Roman world the Renaissance and the Enlightenment Scholars students and interested lay persons alike will benefit from the wealth of general information found here as well as detailed discussion on many topics currently under debate from the significance of Qumran to the influence of the Semitic and Greek world on Christianity **The Character of David in Judaism, Christianity and Islam** , 2021-11-29 King David if one of the most central figures in all of the major monotheistic traditions He generally connotes the heroic past of the more imagined than real ancient Israelite empire and is associated with messianic hopes for the future Nevertheless

his richly ambivalent and fascinating literary portrayal in the Hebrew Bible is one of the most complex of all biblical characters This volume aims at taking a new critical look at the process of biblical creation and subsequent exegetical transformation of the character of David and his attributed literary composition the Psalms with particular emphasis put on the multilateral fertilization and cross cultural interchanges among Jews Christians and Muslims *Judaism, Christianity, and Islam: The Classical Texts and Their Interpretation, Volume II* F. E. Peters, 1990-08-15 F E Peters has taken the basic texts of the three related and competitive religious systems we call Judaism Christianity and Islam and has juxtaposed them in a topical and parallel arrangement according to the issues that most concerned all these children of Abraham Through these extensive passages and the author's connective commentary the three traditions are shown with their similarities sometimes startlingly underlined and their well known differences now more profoundly exposed What emerges from this ambitious work is a panorama of belief practice and sensibility that will broaden our understanding of our religious and political roots in a past that is by these communities definition still the present Throughout the work we hear an amazing variety of voices some familiar some not all of them central to the primary and secondary canons of their own tradition alongside the Scriptural voice of God are the words of theologians priests visionaries lawyers rulers and the ruled From publisher description

Oral-Scribal Dimensions of Scripture, Piety, and Practice Werner H. Kelber, Paula A. Sanders, 2016-09-30 In April 2008 a conference was convened at Rice University that brought together experts in the three monotheistic religions of Judaism Christianity and Islam The papers discussed at the conference are presented here revised and updated The thirteen contributions comprise the keynote address by John Miles Foley three essays on Judaism and the Hebrew Bible three on the New Testament three on the Qur'an and two summarizing pieces by the Africanist Ruth Finnegan and the Islamicist William Graham respectively The central thesis of the book states that sacred Scripture was experienced by the three faiths less as a text contained between two covers and a literary genre and far more as an oral phenomenon In developing the performative recitative aspects of the three religions the authors directly or by implication challenge their distinctly textual identities Instead of viewing the three faiths as quintessential religions of the book these writers argue that the religions have been and continue to be appropriated not only as written but also very much as oral authorities with the two media interpenetrating and mutually influencing each other in myriad ways

Enoch from Antiquity to the Middle Ages John C. Reeves, Annette Yoshiko Reed, 2018 Across the ancient and medieval literature of Judaism Christianity and Islam one finds references to the antediluvian sage Enoch Both the Book of the Watchers and the Astronomical Book were long known from their Ethiopic versions which are preserved as part of Mashafa Henok Nabi Book of Enoch the Prophet an Enochic compendium known in the West as 1 Enoch Since the discovery of Aramaic fragments among the Dead Sea Scrolls these books have attracted renewed attention as important sources for ancient Judaism Among

the results has been the recognition of the surprisingly long and varied tradition surrounding Enoch Within 1 Enoch alone for instance we find evidence for intensive literary creativity This volume provides a comprehensive set of core references for easy and accessible consultation It shows that the rich afterlives of Enochic texts and traditions can be studied more thoroughly by scholars of Second Temple Judaism and early Christianity as well as by scholars of late antique and medieval religions Specialists in the Second Temple period the era in which Enochic literature first appears will be able to trace or discount the survival of Enochic motifs and mythemes within Jewish literary circles from late antiquity into the Middle Ages thereby shedding light on the trajectories of Jewish apocalypticism and its possible intersections with Jewish mysticism Students of Near Eastern esotericism and Hellenistic philosophies will have further data for exploring the origins of gnosticism and its possible impact upon sectarian currents in Judaism Christianity and Islam Those interested in the intellectual symbiosis among Jews Christians and Muslims in the Middle Ages and especially in the transmission of the ancient sciences associated with Hermeticism e g astrology theurgy divinatory techniques alchemy angelology demonology will be able to view a chain of tradition reconstructed in its entirety for the first time in textual form In the process we hope to provide historians of religion with a new tool for assessing the intertextual relationships between different religious corpora and for understanding the intertwined histories of the major religious communities of the ancient and medieval Near East

Torah in the Mouth Martin S. Jaffee, 2001 Through analysis of the evidence Martin Jaffee shows that the Rabbinic tradition as we have it in the present developed through a mutual interpretation of oral and written modes but that the oral tradition always takes precedence *What, Exactly, Did the Rabbinic Sages Mean by The Oral Torah* Jacob Neusner, 1998 Examines the evolution of the concept that Moses received two versions of the Torah at Sinai one written and one oral and that the oral version has been passed down mouth to mouth to the present day Follows the chain of documents on the written side looks at how the two Torah differ and compares how the difference has been understood in vari *Religion and Finance* Mervyn K. Lewis, Ahmad Kaleem, 2019 Judaism Christianity and Islam all impose obligations and constraints upon the rightful use of wealth and earthly resources All three of these religions have well researched views on the acceptability of practices such as usury but the principles and practices of other non interest financial instruments are less well known This book examines each of these three major world faiths considering their teachings social precepts and economic frameworks which are set out as a guide for the financial dealings and economic behaviour of their adherents *The Great Teachers of Judaism and Christianity* Charles Foster Kent, 1911
