**Web3** Alex Tapscott, 2023-09-19 A WALL STREET JOURNAL AND GLOBE AND MAIL BESTSELLER. An essential introduction and guide to navigating the next Internet revolution, everything from the metaverse and NFTs to DAOs, decentralized finance, and self-sovereign identity. From the co-author of the international bestseller Blockchain Revolution: The Web and with it the Internet are entering a new age. We've moved from the Read-only Web, which had little functionality for interacting with content, to the Read-Write Web, which offered seemingly endless collaborative opportunities, from sharing with our favorite people to shopping at our favorite brands. But the profusion of cyberattacks, data hacks, and online profiling have left many of us to view digital life as a Faustian bargain in need of a major rethink. That rethink is Web3: the Read-Write Own Web, a decentralized Internet where individuals own their own identities and can securely trade assets like money, securities, intellectual property, and art, peer-to-peer. Made possible by blockchain's foundational technology of bitcoin, Web3 promises the biggest shake-up of business since the invention of double-entry bookkeeping in the Middle Ages. It is the Internet's new frontier. In Web3, award-winning author and technology investor Alex Tapscott provides a cutting-edge guide to the Internet's next era. Covering everything from the metaverse and non-fungible tokens to DAOs, decentralized finance, and self-sovereign identity, this indispensable forward-thinking book describes the building blocks and often hidden technologies that will be foundational to our cultural and economic progress.
