**Business Process Modeling**

**Notation** Jan Mendling, Matthias Weidlich, Mathias Weske, 2010-10-11 The BPMN 2010 workshop series provides a forum for academics and practitioners that share an interest in business process modeling using Business Process Modeling Notation (BPMN) which has seen a huge uptake in both academia and industry. It is seen by many as the de facto standard for business process modeling. It has become very popular with business analysts, tool vendors, practitioners, and end users. BPMN promises to bridge business and IT and brings process design and implementation closer together. BPMN 2010 was the second workshop of the series. It took place October 13-14, 2010 at the Hasso Plattner Institute at the University of Potsdam, Germany. This volume contains six contributed research papers that were selected from 16 submissions. There was a thorough reviewing process with each paper being reviewed by on average four Program Committee members. In addition to the contributed papers, these proceedings contain three short papers and three extended abstracts of the invited keynote talks. In conjunction with the scientific workshop, a practitioners' event took place the day after the workshop. We want to express our gratitude to all those who made BPMN 2010 possible by generously and voluntarily sharing their knowledge, skills, and time. In particular, we thank the Program Committee members as well as the additional reviewers for devoting their expertise and time to ensure the high quality of the workshop's scientific program through an extensive review process. Finally, we are grateful to all the authors who showed their appreciation and support for the workshop by submitting their valuable work to it.
