organization's project management maturity. In doing so, it discusses the advantages and disadvantages of using project management maturity models and overviews the purpose and the process of applying the OPM3 model, noting its key elements and relationships. It then analyzes the case studies showing how the profiled organizations—Australia's Centrelink, a New Zealand public sector organization, a US state government's information technology (IT) division, US-based Washington Savannah River Company—used OPM3 to assess their project management maturity. It details the findings, identifying each company's organizational context, assessment type and scope, assessment triggers, and project management maturity.

Organizational Project Management Maturity Model (OPM3) to Improve Ministry of Construction and Housing (MOCAH) Within Kurdistan Regional Government Azad Jabbar Mustafa, 2015. The Organizational Project Management Maturity Model (OPM3), a standard developed by the Project Management Institute (PMI), has become an effective model to help an organization successfully implement strategies and achieve its objectives consistently, reliably, and predictably. This research studies the application of the OPM3 to assess the organizational project management capabilities of the Ministry of Construction and Housing (MOCAH) within Kurdistan Regional Government (KRG). The research provides a review of a project management office (PMO), organizational project management (OPM), project management maturity (PMM), types of maturity models, previous applications, examples of OPM3, and their findings, and selecting the OPM3 model for the research case study (MOCAH). Furthermore, the research provides OPM3 concepts, elements, domains, processes, components, construct, and an application of the OPM3 assessment tool. A brief background of the Kurdistan Region and Kurdistan Regional Government and MOCAH is provided. A Strengths, Weaknesses, Opportunities, and Threats analysis was used to identify MOCAH's current structure and OPM performance that are not optimal to deliver projects successfully. Therefore, the objective of the research is to apply the OPM3 model to assess the current PMM of MOCAH and develop a roadmap for improvements. The OPM3 assessment was conducted by an industry expert in collaboration with MOCAH stakeholders. Different questions and several questionnaires were posed to the stakeholders, and the results were used to assess the maturity level of MOCAH.
