U.S. News & World Report, 2008 **U.S. News and World Report**, 2007 *Make College Your Superpower* Anna Esaki-Smith, 2024-04-02 Shows young adults how to look beyond the college brand to find the place that's the best fit for their unique skills and interests.

Introduction to Public Administration in the Philippines Danilo R. Reyes, 2015 **The New Education** Cathy N. Davidson, 2017-09-05 A leading educational thinker argues that the American university is stuck in the past and shows how we can revolutionize it for our era of constant change. Our current system of higher education dates to the period from 1865 to 1925. It was in those decades that the nation's new universities created grades and departments, majors and minors, all in an attempt to prepare young people for a world transformed by the telegraph and the Model T. As Cathy N. Davidson argues in *The New Education*, this approach to education is wholly unsuited to the era of the gig economy. From the Ivy League to community colleges, she introduces us to innovators who are remaking college for our own time by emphasizing

student centered learning that values creativity in the face of change above all The New Education ultimately shows how we can teach students not only to survive but to thrive amid the challenges to come
