Painter Time Mathew Oconnell:

The Painter of Time Mathew O'Connell,2015-12-19 The Painter of Time is an art history laden mystery that weaves its way between the dawn of the Renaissance and modern day New York It questions the very nature of what we consider reality while at the same time exploring the cost of pursuing fame and fortune at the expense of true art **Francis of Assisi as Artist of the Spiritual Life** Andrew T. McCarthy,2010-08-13 Francis of Assisi as Artist of the Spiritual Life applies modern psychological understanding to a historical person While most such studies have sought a comprehensive personality profile this work focuses on one aspect Francis imagination and seeks greater insight into the imaginatively inspired spiritual vision of St Francis An analysis of Francis writings builds on a survey of modern views of the imagination and the approach of ORT or Object Relations Theory ORT with its contention that the imaginative creation of an infant s world develops out of the earliest interactions with the maternal caregiver highlights the way Francis formed his way of visualizing the reality around him While any study of a person 800 years in the grave is more dependent on what is plausible than on what is determinable this study finds numerous examples where Francis writings display an adept use of imagination and even encourages others in that use in a manner that corresponds to an ORT perspective on tutoring the imagination Club Men of New York ,1893
