The book discusses what a good pricing decision is, which factors you should consider when making one, the role played by each factor, costs, customer value, reference prices and the value proposition, and how they work together. The importance of price execution and how to evaluate the success of pricing decisions. You will also be introduced to a set of useful and straightforward tools to implement the value pricing framework and study many examples and company case studies that illustrate its nuances. The purpose of How to Price Effectively A Guide for Managers and Entrepreneurs is to provide you with a comprehensive practical guide to making, executing and evaluating pricing decisions.

Priced to Influence, Sell & Satisfy: Lessons from Behavioral Economics for Pricing Success Utpal Dholakia, 2019-06-23 Pricing holds the key to business success. The greatest challenge in pricing is the human factor. To price effectively, customer psychology usually trumps rational microeconomic thinking. How did Subway turn one accidentally discovered price promotion into a multi billion dollar success story? How much knowledge of prices do customers really have? Why do most people spend two months salary to buy an engagement ring? Does Pay What You Want pricing really work? How can you get your customers to trade up? Why do Supreme t-shirts sell for 1,500 or more? Why do so many consumers hate Uber's surge pricing even though economists love it? In Priced to Influence Sell Satisfy, you will find answers to these and many more questions. The book introduces the latest thinking about Psychological Pricing, the science of designing effective pricing strategies using behavioral economics principles. You will learn how customers search for, evaluate, share and use prices in their buying decisions, how they participate in setting prices and what managers can do to understand and influence these processes. Psychological pricing actions are levered. Many of them require relatively small investments and produce disproportionately large returns to the business.
