Cultures of Thinking in Action Ron Ritchhart, 2023-06-27 From leading educational researcher Ron Ritchhart a deep dive that illuminates what the foundational mindsets needed to create cultures of thinking really looks like in action Building on the framework presented in the best selling Creating Cultures of Thinking Ron Ritchhart s new book Cultures of Thinking in Action takes the next step in helping readers not only understand how a culture of thinking looks and feels but also how to create it for themselves and their learners Arguing that no set of practices or techniques alone is sufficient to create a culture of thinking in and of itself Ritchhart explores the underlying beliefs that motivate the creation of cultures of thinking presenting key mindsets every educator and leader needs to embrace if they are serious about creating powerful thinkers and learners Much more than just an instructional guide Cultures of Thinking in Action offers readers a reflective journey into their own teaching leading and parenting while providing the foundation and concrete strategies needed to create and develop a culture of thinking for all learners This book Presents ten foundational mindsets of a culture of thinking Includes the latest research of the Cultures of Thinking Project Includes questions exercises and discussion prompts to inspire reflection by individuals and teams Provides case studies and best practice scenarios to exemplify each mindset Provides useful data collection tools to inform one s teaching practice

Hannah Arendt on Educational Thinking and Practice in Dark Times Wayne Veck, Helen M. Gunter, 2020-02-20 In her renowned and provocative essay The Crisis in Education Hannah Arendt observed that a crisis becomes a disaster only when we respond to it with preformed judgements that is with prejudices Taken as a whole Arendt s work provides an enduring provocation to think and to make judgements about education and the issues that impact on it such as political economic and cultural disruption and uncertainty Drawing together the leading thinkers on Arendtian ideas and education this collection explores the role and promise education can have in preparing the future generation to understand to think about and to act within the world Concluding the same essay on the crisis in education Arendt declared education to be the point at which love for the world meets love for those who are newcomers to it The authors respond to Arendt s call for responsibility and authority in education providing a leading edge thinking analysis and agenda setting for public education systems and the world in dark times

Anthropology of the Anthropocene François Prouteau, 2024-11-19 This book questions the epistemological foundations of education in the Anthropocene It reviews a body of evidence that strongly supports the view that the Earth s systems are

emerging into an epoch known as the Anthropocene This volume examines a number of concepts including the political ecology and the modes of veridiction in the Anthropocene as well as philosophy anthropology and history of the concept of courage and the humanities It champions forward looking educational initiatives and presents a new philosophy on education for the Anthropocene The concept of the Anthropocene extends to many fields of sciences It is now anchored in a multidisciplinary scientific literature and recognized by both sides of the ideological and political battle of the 21st century on which several controversies are grafted in a complex way It also has a strong anthropological consistency what kind of humans do we want to become The author explores how the recognition of the crisis helps to see the history of humanity with unexpected freshness This work contributes to an epistemological and paradigmatic reflection on the foundations of education in the Anthropocene epoch The author has seized on the biogeophysical ruptures of the Anthropocene to develop a pedagogical and anthropological reflection in a stimulating and creative way This volume is of interest to researchers of the Anthropocene as well as to scholars in ecology social sciences pedagogy and philosophy
