Today the situation is quite different and 80% of paraplegics are superbly organized, meticulous in his care of spinal victims, have a relatively normal life planning and energetic in his execution of expectations. The author of this book was one of the first to realize that if a paraplegic patient is from his staff. As a result, his Spinal Unit in Perth, Australia, is one of the best treatment centers in the world. His prevention of individual complications and rehabilitation centers in the world is a fact that is truly staggering.
