Ecologically Unequal Exchange R. Scott Frey, Paul K. Gellert, Harry F. Dahms, 2018-07-04 At a time of societal urgency surrounding ecological crises from depleted fisheries to mineral extraction and potential pathways towards environmental and ecological justice this book re-examines ecologically unequal exchange EUE from a historical and comparative perspective The theory of ecologically unequal exchange posits that core or northern consumption and capital accumulation is based on peripheral or southern environmental degradation and extraction In other words structures of social and environmental inequality between the Global North and Global South are founded in the extraction of materials from as well as displacement of waste to the South This volume represents a set of tightly interlinked papers with the aim to assess ecologically unequal exchange and to move it forward Chapters are organised into three main sections theoretical foundations and critical reflections on ecologically unequal exchange empirical research on mining deforestation fisheries and the like and strategies for responding to the adverse consequences associated with unequal ecological exchange Scholars as well as advanced undergraduate and graduate students will benefit from the spirited re-evaluation and extension of ecologically unequal exchange theory research and praxis

The European Union and Regionalism, 2025-10-06 While the EU is the most emblematic Regional International Organization RIO the regional perspective is largely absent in debates about the EU's identity and external posture What does the regional lens offer to the study of EU law How is the regional dimension reflected in EU policymaking and how does it impact norm production This book offers the first critical legal account of the EU as a RIO It brings together scholars from different disciplines to reflect on the construction use and misuse of the region in EU law and practice and to examine how this dimension interacts with other RIOs

Coalitions in the Climate Change Negotiations Carola Klöck, Paula Castro, Florian Weiler, Lau Øfjord Blaxekjær, 2020-11-22 This edited volume provides both a broad overview of cooperation patterns in the UNFCCC climate change negotiations and an in-depth analysis of specific coalitions and their relations Over the course of three parts this book maps out and takes stock of patterns of cooperation in the climate change negotiations since their inception in 1995 In Part I the authors focus on the evolution of coalitions over time examining why these emerged and how they function Part II drills deeper into a set of coalitions particularly new political groups that have emerged in the last rounds of negotiations around the Copenhagen Accord and the Paris Agreement Finally Part III explores common themes and open questions in coalition research and provides a comprehensive overview of coalitions in the climate change negotiations By taking a broad approach to the study of coalitions in the climate change negotiations this volume is an essential reference source for researchers students and negotiators with an interest in the dynamics of climate negotiations

Brazil and Climate Change Viola Eduardo, Matías Franchini, 2017-10-23 Climate change is increasingly a part of the human experience As the problem worsens the cooperative dilemma that the issue carries has become evident climate change is a complex problem that systematically gets insufficient

answers from the international system This book offers an assessment of Brazil's role in the global political economy of climate change The authors Eduardo Viola and Matias Franchini expertly review and answer the most common and widely cited questions on whether and in which way Brazil is aggravating or mitigating the climate crisis including Is it the benign cooperative environmental power that the Brazilian government claims it is Why was it possible to dramatically reduce deforestation in the Amazon 2005 2010 and more recently was there a partial reversion The book provides an accessible and much needed introduction to all those studying the challenges of the international system in the Anthropocene Through a thorough analysis of Brazil in perspective vis a vis other emerging countries this book provides an engaging introduction and up to date assessment of the climate reality of Brazil and a framework to analyze the climate performance of major economies both on emission trajectory and policy profile the climate commitment approach Brazil and Climate Change is essential reading for all students of Environmental Studies Latin American Studies International Relations and Comparative Politics

National Climate Change Acts Thomas L Muinzer, 2020-12-10 This groundbreaking book collects contributions from many of the world's leading climate and energy law scholars and provides the first major study of national Climate Change Acts This cutting edge type of legislation originated with the first Climate Change Act framework which was passed in the United Kingdom in 2008 and is intended to enable the law to grapple effectively with one of the great problems of our times anthropogenic climate change Since 2008 national framework climate legislation has been slowly but steadily emerging in countries across the world This trailblazing collection employs a comparative analytical legal methodology and offers the first comprehensive study of this new innovative form of legislative regime In addition to containing broad internationalist chapters deep dive national case study chapters are included that focus on individual countries and provide analytical depth A final chapter draws together the threads of the book's foregoing contributions to deduce generalisable conceptual insights based on current knowledge and experience Uniquely the book provides a conceptual model for Climate Change Acts that can usefully inform the development of national framework climate legislation in all countries
