Consumer Behaviour Jean-Eric Pelet, 2025-03-03 With this textbook students will learn the concepts theories and processes of consumer behaviour and how to apply them in a digitalized and competitive business landscape. Consumer Behaviour combines theoretical underpinnings with real world practice to provide comprehensive up to date coverage of the subject. It explores how consumer behaviour has evolved with the impact of technology personalization and sustainability on perception and decision making. This textbook is ideal for postgraduate students taking modules on Consumer Behaviour as part of their Marketing degrees. Features include Chapters on the psychological and social dynamics of consumer behaviour and the scientific foundations of learning and memory in brand engagement. Examination of the role of AR VR and the metaverse in retail experiences live streaming and voice commerce as well as quantum computing and the importance of good UX design. Ethical considerations of the digital consumer landscape including privacy and data concerns. Learning outcomes key terms a glossary and exercise questions international examples throughout to help develop critical thinking.

Disability Identity in Simulation Narratives Anelise Haukaas, 2023-12-14 Disability Identity in Simulation Narratives considers the relationship between disability identity and simulation activities ranging from traditional gameplay to more revolutionary technology in contemporary science fiction. Anelise Haukaas applies posthumanist theory to an examination of disability identity in a variety of science fiction texts adult novels young adult literature and comics as well as ethnographic research with gamers. Haukaas argues that instead of being a means of escapism simulated experiences are a valuable tool for cultivating self acceptance and promoting empathy. Through increasingly accessible technology and innovative gameplay traditional hierarchies are dismantled and different ways of being are both explored and validated. Ultimately the book aims to expand our understandings of disability performance and self creation in significant ways by exploring the boundless selves that the simulated environments in these texts allow.

Playful Pedagogy in the Pandemic Emily K. Johnson, Anastasia Salter, 2022-08-26 Educational technology adoption is more widespread than ever in the wake of COVID 19 as corporations have commodified student

engagement in makeshift packages marketed as gamification This book seeks to create a space for playful learning in higher education asserting the need for a pedagogy of care and engagement as well as collaboration with students to help us reimagine education outside of prescriptive educational technology Virtual learning has turned the course management system into the classroom and business platforms for streaming video have become awkward substitutions for lecture and discussion Gaming once heralded as a potential tool for rethinking our relationship with educational technology is now inextricably linked in our collective understanding to challenges of misogyny white supremacy and the circulation of misinformation The initial promise of games based learning seems to linger only as gamification a form of structuring that creates mechanisms and incentives but limits opportunity for play As higher education teeters on the brink of unprecedented crisis this book proclaims the urgent need to find a space for playful learning and to find new inspiration in the platforms and interventions of personal gaming and in turn restructure the corporatized surveilling classroom of a gamified world Through an in depth analysis of the challenges and opportunities presented by pandemic pedagogy this book reveals the conditions that led to the widespread failure of adoption of games based learning and offers a model of hope for a future driven by new tools and platforms for personal experimental game making as intellectual inquiry

Software Engineering, Artificial Intelligence, Networking and Parallel/Distributed Computing Roger Lee,2022-11-18 This book presents scientific results of the 23rd ACIS International Summer Virtual Conference on Software Engineering Artificial Intelligence Networking and Parallel Distributed Computing SNPD2022 Summer which was held on July 4 6 2022 at Kyoto City Japan The aim of this conference was to bring together researchers and scientists businessmen and entrepreneurs teachers engineers computer users and students to discuss the numerous fields of computer science and to share their experiences and exchange new ideas and information in a meaningful way Research results about all aspects theory applications and tools of computer and information science and to discuss the practical challenges encountered along the way and the solutions adopted to solve them The conference organizers selected the best papers from those papers accepted for presentation at the workshop The papers were chosen based on review scores submitted by members of the program committee and underwent further rigorous rounds of review From this second round of review 15 of most promising papers are then published in this Springer SCI book and not the conference proceedings We impatiently await the important contributions that we know these authors will bring to the field of computer and information science

The Good Side of Technology: How We Can Harness the Positive Potential of Digital Technology to Maximize Well-being John F. Hunter,Stephen Schueller,Lisa C. Walsh,Chi-Keung Chan,2023-10-31 **New Directions in Childhood Studies** James M. Curtis,2024-01-04 New Directions in Childhood Studies Innocence Trauma and Agency in the Twenty first Century acknowledges that the conceptual frameworks for understanding the experience of childhood in the twentieth century are no longer adequate and offers important updates to the construct of American childhood The chapters in this collection examine contemporary children s

literature film and video games to explore the ways in which everyday realities like trauma disaster and death impact the experience of childhood in America today In many ways the essays show the narratives blur traditional lines between children s and adult content taking children series as subjects while also guiding them through the processes of dealing with the particular challenges Collectively the essays develop a more contemporary construct of the American child and offer new insights into what that construction might mean for contemporary American society and culture
