**Emerging Technologies, Novel Crimes, and Security** Hedi Nasheri, 2024-12-30 This book provides a holistic overview of the complexities of modern technological advances and their implications for crime and security. It examines the societal dilemmas that accompany these technologies, their strategic impact on geopolitics, governments, business, and civil society. The increasingly interconnected world gives rise to novel crimes and creates a new complex set of threats. Understanding this landscape is essential to strategizing for the prevention, protection, mitigation, and risk assessment of technology-related crime. Practical and approachable, this book builds knowledge and awareness of the impact of emerging technologies on crime and security among professionals, students, academicians, researchers, and policymakers.

*How Video Games Made the Metaverse* Kelly Vero, 2026-01-22 This book offers an unflinching look at the creative and structural challenges of storytelling in interactive media. Drawing on over 30 years of industry experience, Kelly Vero explores the rich interplay between narrative design and technology, making the case for why story far from being a cosmetic layer is foundational to player engagement, emotional investment, and lasting value in games and virtual worlds. The book unpacks how narrative design works across different genres and platforms, from AAA games and sandbox titles to immersive metaverses, offering a toolkit of questions and techniques to help creators build experiences that resonate. Vero brings the reader inside the design process, examining iterative workflows, empathy versus hypothesis testing, and the importance of building for diverse, evolving user bases. She draws from case studies including *The Legend of Zelda*, *BTS Universe Story*, *Final Fantasy XIV*, and even *RuneScape*'s infamous party hat, showing how stories are told not just through dialogue but also through User Interface (UI) environment mechanics and player choice. Crucially, *How Video Games Made the Metaverse: From Pixels to Portals* is about building worlds that people want to live in. Whether you're a product lead, a writer, or a designer, this book explores how to integrate content, interaction, and community into a unified whole. It challenges creators to abandon ego-led development and instead embrace deep user understanding as the compass for creative direction. By the end, readers will understand how to apply storytelling techniques not only to games and metaverses but also to digital products more broadly, from loyalty programmes and education platforms to virtual retail and Artificial Intelligence (AI) companions. Vero's reflections on narrative purpose and legacy offer a roadmap for creating digital experiences that matter, not just ones that entertain.

**We the Gamers** Karen Schrier, 2021 *Distrust, Division, Disparity* Is our world in disrepair? Ethics and civics have always mattered, but perhaps they matter now more than ever before. Recently, with the rise of online teaching and movements like *PlayApartTogether*, games have become increasingly acknowledged as platforms for civic deliberation and value sharing. *We the Gamers* explores these possibilities by examining how we connect, communicate, analyze, and discover when we play games. Combining research-based perspectives and current examples, this volume shows how games can be used in ethics, civics, and social studies education to inspire learning, critical thinking, and civic change. *We the Gamers* introduces and

explores various educational frameworks through a range of games and interactive experiences including board and card games online games virtual reality and augmented reality games and digital games like Minecraft Executive Command Keep Talking and Nobody Explodes Fortnite When Rivers Were Trails Politicraft Quandary and Animal Crossing New Horizons The book systematically evaluates the types of skills concepts and knowledge needed for civic and ethical engagement and details how games can foster these skills in classrooms remote learning environments and other educational settings We the Gamers also explores the obstacles to learning with games and how to overcome those obstacles by encouraging equity and inclusion care and compassion and fairness and justice Featuring helpful tips and case studies We the Gamers shows teachers the strengths and limitations of games in helping students connect with civics and ethics and imagines how we might repair and remake our world through gaming together

**Power On** Ash Brandin, 2025-08-26 From The Gamer Educator an openminded guide to parenting alongside screens and gaming offering practical solutions to managing your family's screen time Parents are feeling mounting pressure to minimize screen time but are struggling to do so in our technologically driven world In contrast to the fear and pressure parents are facing Ash Brandin's Power On offers a calm and reassuring message that keeps the wellbeing of the whole family in mind Power On powerfully reframes our current dialogue around technology beginning with the morality placed on screen time and leisure and the systemic factors contributing to it Brandin replaces fear with empowerment giving caregivers tools and strategies for safely incorporating tech into their children's lives guiding children to having a healthy relationship with screens with easy to implement approaches such as The ABCs of the Screentime Management Elements Access Behavior Content The Managing Online Safety S T A R Settings Time Ads App Store Restriction The N I C E Screentime Boundaries Needs Input Consistent Enforceable And several other sets of steps tools and strategies to understand manage and effectively utilize tech in parenting With today's parenting advice being awash with unhelpful negative judgements on screens and little realistic actionable advice Ash Brandin provides timely realistic direction that will empower readers to find a balance with screen time that works for the entire family
