Target--intensity Timothy Herzog,Kevin A. Baumert,Jonathan Pershing,2006 An analysis of GHG Intensity targets  
underlying indicators rationales real world applications and implementation issues Greenhouse gas intensity targets are  
policies that specify emissions reductions relative to productivity or economic output for instance tons CO2 million dollars  
GDP By contrast absolute emissions targets specify reductions measured in metric tons relative only to a historical baseline  
This report looks specifically at intensity targets and explores their underlying indicators rationales real world applications  
and implementation issues It finds that although intensity targets are often dismissed as being environmentally lax or  
deceptive they nonetheless could be useful policy instruments when properly used for furthering significant and real
