Hacker's Challenge 3 David Pollino, 2006 The stories about phishing attacks against banks are so true to life it's chilling. Joel Dubin CISSP Microsoft MVP in Security. Every day hackers are devising new ways to break into your network. Do you have what it takes to stop them? Find out in *Hacker's Challenge 3*. Inside, top-tier security experts offer 20 brand-new real-world network security incidents to test your computer forensics and response skills. All the latest hot-button topics are covered, including phishing and pharming, scams, internal corporate hacking, Cisco IOS, wireless iSCSI storage, VoIP, Windows, Mac OS X, and UNIX/Linux hacks, and much more. Each challenge includes a detailed explanation of the incident, how the break-in was detected, evidence and clues, technical background such as log files and network maps, and a series of questions for you to solve. In Part II, you'll get a detailed analysis of how the experts solved each incident.

Excerpt from *Big Bait, Big Phish: The Challenge*: Could you find out what's going on with the gobi web server? Customer order e-mails aren't being sent out and the thing's chugging under a big load. Rob e-mailed the development team, reminding them not to send marketing e-mails from the gobi web server. Customer service is worried about some issue with tons of disputed false orders. Rob noticed a suspicious pattern with the false orders: they were all being delivered to the same P.O. box. He decided to investigate the access logs. An external JavaScript file being referenced seemed especially strange, so he tested to see if he could access it himself. The attacker was manipulating the link parameter of the login.pl application. Rob needed to see the server-side script that generated the login.pl page to determine the purpose.

The Solution After reviewing the log files included in the challenge, propose your assessment. What is the significance of the attacker's JavaScript file? What was an early clue that Rob missed that might have alerted him to something being amiss? What are some different ways the attacker

could have delivered the payload Who is this attack ultimately targeted against Then turn to the experts answers to find out what really happened **Work at Home with a Real Online Job** AnnaMaria Bliven,2016-03-02 Find the Job You Want Today Are you a work at home mom or dad retiree or disabled person hoping to earn a little extra to make ends meet Are you seeking a legitimate rewarding online job you can do from home Do you dream of being in charge of your own schedule income advancement destiny If you said yes to any of these questions this book is for you In Work at Home with a Real Job Online you can find just the right job schedule income and future with the help of a leading expert in the field of online job success and prosperity AnnaMaria Bliven Known as the Prosperity Princess by thousands of people she has helped Bliven has poured her latest and greatest practical proven effective insights into this one information packed no filler easy to use volume In these pages you ll find Hundreds of real jobs with quality companies at your fingertips Pro tips and advice on how to find these jobs get hired keep the job you find and advance in it Opportunities for people of all ages and stages teenagers college students work at home moms and dads military veterans retirees the disabled those with background credit issues and more Positions to match just about any interest passion potential or skill set game tester customer service agent educator data entry specialist nurse medical coding specialist transcriptionist translator interpreter artist writer computer technologist and many more Get your copy of Work at Home with a Real Job Online today start working tomorrow
