Tales of neuroscience Pranjal Garg,2023-04-27 Tales of Neuroscience is a compendium of 41 articles authored by students and mentors who participated in a mentorship program. The book covers a diverse range of topics within the field of neuroscience including basic neuroscience, diseases, mental health, neuro technology and the impact of neuroscience on daily life. The book is unique in that it also includes translations of select articles in Hindi, Bengali and Malayalam thereby broadening the accessibility of the content to a wider audience. The contributors offer insightful perspectives and deep insights into the intricacies of the brain, making this book an informative and engaging read for anyone interested in the field of neuroscience.

The Impact of YouTube on U.S. Politics LaChrystal D. Ricke,2014-08-14 The Impact of YouTube on U.S. Politics provides a historical, descriptive and conceptual analysis of the broad and evolving political impact of YouTube. It specifically addresses how politicians, campaigns, the media and the public utilize YouTube for political campaigning, communication and engagement. The text provides a synthesized illustration of the ways in which YouTube has become a requisite political tool and normalized as a central platform for political communication in the United States. LaChrystal Ricke discusses political YouTube videos and strategies spanning across the 2006, 2008, 2010 and 2012 election cycles and addresses the potential impact of YouTube in future U.S. elections.

People, Places, and Belonging William Marsiglio,2025-01-31 Place matters for good and bad. Infinitely diverse in form, place embodies the action settings where social life happens. Often fighting to preserve a sense of group belonging, in the process we design places to reflect our values and interests. With an eye on our rapidly changing world, People, Places, and Belonging explores how social realities at every level are affected by the places we collectively forge across various social domains. The book shows how place-related circumstances can promote personal empowerment, civic engagement, and social and environmental justice. Discussing places that affect personal and social well-being, including homes, communities, vehicles, and the metaverse, William Marsiglio illustrates how a web of social processes involving claims, attachments, rituals, and transitions, structure our experiences in place. The author argues that we can use decision-making principles to enhance our attachments, encourage supportive rituals, smooth out transitions, and manage claims with less conflict and more social justice. Armed with a heightened place consciousness and ethical principles, People, Places, and Belonging ultimately posits that we must individually and collectively build places that enrich our lives, celebrate the communal spirit, and foster social equity and ecological justice.

The Schoolwide Enrichment Model in Science Nancy L. Heilbronner,2021-09-30 Grounded in decades of research, the Schoolwide Enrichment Model (SEM) has been successfully implemented at hundreds of schools across the world. Now, The Schoolwide Enrichment Model in Science: A Hands-on Approach for Engaging Young Scientists takes high engagement learning one step further by applying SEM teaching strategies to the science curriculum. In this book, teachers learn how to engage students and to teach the skills needed to complete meaningful, in-depth investigations in science. Activities are connected to the Next
