Adolescent Substance Abuse Carl G. Leukefeld, Thomas P. Gullotta, 2018-08-25 The second edition of this book incorporates the latest theory, research, and best practices for understanding, treating, and preventing substance abuse among adolescents. It updates the progress made in treatments for and prevention of the misuse of substances and adds new specific chapters on prescriptions opiates and methamphetamine abuse. The book discusses the effects of commonly abused substances from tobacco and alcohol to stimulants and opioids on the human brain and the various psychosocial routes to their misuse by adolescents. Chapters provide evidence-based guidelines for assessing adolescent treatment needs and review psychological, pharmacological, family, and self-help interventions. The book offers new paths in diverse directions, analyzes the core components of substance use prevention, critiques emerging school-based interventions, and introduces a nuanced reconceptualization of recovery. Topics featured in the book include: The effect of family and caregiver situations on adolescent substance abuse, A biological genetic perspective on adolescent substance abuse, School-based preventions, and the evolution of evidence-based strategies. The role of adolescent self-help in substance abuse interventions, Community-based interventions to reduce alcohol use and misuse. *Adolescent Substance Abuse Second Edition* is a must-have reference for researchers, clinicians, practitioners, and graduate students in the fields of child and school psychology, social work, public health, developmental psychology, child and adolescent psychiatry, and various interrelated mental health and social policy arenas.

Napa County (Calif.). County Auditor-Controller, 1977 *People and Predicaments* Milton Mazer, 1976 This is the compelling story of an experiment begun in 1961 that eventually affected the lives of almost all of the residents of the island of Martha's Vineyard. The author writes engagingly of the island and its year round inhabitants a community of some seven thousand persons of diverse ethnic and social backgrounds. With sympathy and insight Milton Mazer analyzes the stresses that are peculiar to the conditions of life on the island and he describes the kinds of psychological disorders that are precipitated by those stresses. He reports without technical jargon the results of a five year study of a great variety of psychosocial predicaments experienced by the people of the island. Finally he examines the catalytic effect the mental health center and its research findings have had on the development of other supportive agencies and how the community established a network of human services to meet its needs. The work clearly demonstrates that striking advances can be made by a mental health program that is informed by an understanding of the community served. The book will stand as a model for future studies in this area BMJ, 2008
