Paths to Glory Mark L. Armour, Daniel R. Levitt, 2003 In over a hundred years baseball has produced more than two hundred league champions each with a story of how its management built a winner Armour and Levitt look at teams that took risks created their own opportunities and changed the game What was consistent in the construction of the 1965 Twins the 1917 White Sox and the 1997 Marlins for example and what was different How did the general managers of such teams identify problems and fix them By studying the decisions of past champions and identifying those responsible for success some of the most worthwhile strategies become apparent Conversely by examining the formation of teams that disappointed the authors find common mistakes and decisions that did not work as intended Why did teams that were great on paper such as the Red Sox of the 1930s or the Atlanta Braves of the early 1990s who dominated the National League yet won only one World Series keep falling short Armour and Levitt answer this question They also explain how different teams were products of their times and how they succeeded or failed on the basis of what was possible in their day and age With new statistics as well as a lively narrative Armour and Levitt analyze the decisions and the merits of the executives managers and players who made up some of baseball s greatest teams
