Scholarship shortfalls persist leaving NCAA scholarship student athletes to pay hundreds and sometimes thousands of dollars
for additional educational expenses not covered by their current athletic scholarships Meanwhile NCAA campuses continue
to generate money from the sale of apparel and other merchandise featuring star athletes In this detailed study Ernest Cutler
explores the troubling history of money changing hands with none of it going to student athletes who are for some reason
considered amateurs that should not be eligible for payment He also takes a careful look about what such a system says
about academic values and educational institutions as well as how the system contributes to infractions by student athletes
coaches and athletic administrators This research study is not intended to disrespect the NCAA but it does seek to serve as a
tool to change problematic policies that infringe upon the rights of current former and future student athletes The
