The Political Economy and Feasibility of Bitcoin and Cryptocurrencies Pack, Spencer J., 2022-05-13 In *The Political Economy and Feasibility of Bitcoin and Cryptocurrencies* Spencer J Pack brings his authority as a scholar and advisor to this study of bitcoin and cryptocurrencies from the perspective of the history of economic thought Major theorists analyzed in depth include Aristotle Smith Law Marx Keynes Rothbard and Hayek and the book draws extensively upon the ideas of Schumpeter Galbraith and Sraffa The book argues for reconceptualization of the basic microeconomic categories into rental sale and financial asset prices along with a reconsideration of Keynes general theory to his special theory and Rothbard s relationship to Rousseau The author posits that intense theoretical and practical struggles will continue over who should control the quantity of money the cause of the capitalist economy s instability and who or what is more dangerous concentrated centers of private wealth and private enterprises or the contemporary state He concludes that in terms of the quality of money the cryptocurrency community is probably correct with new forms of money potentially being better than sovereign fiat currency The book s relevance will appeal to members of the history of economic thought community economic theorists and political science and political theory scholars as well as to policy makers and members of the cryptocurrency community

The Voltage Effect John A List, 2022-02-03 By far the best book I ve ever read on the how and why of scaling If you care about changing the world or just want to make better decisions in your own life *The Voltage Effect* is for you Angela Duckworth CEO of Character Lab and New York Times bestselling author of *Grit* _____ Why do some ideas make it big while others fail to take off According to award winning behavioural economist John List the answer comes down to a single question Can the idea scale Countless enterprises fall apart the moment they scale their positive results fizzle they lose valuable time and money and the great electric charge of potential that drove them early on disappears In short they

suffer a voltage drop Yet success and failure are not about luck in fact there is a rhyme and reason as to why some ideas fail and why some make it big Certain ideas are predictably scalable while others are predictably destined for disaster In The Voltage Effect University of Chicago economist John A List explains how to identify the ideas that will be successful when scaled and how to avoid those that won't Drawing on his own original research as well as fascinating examples from the realms of business government education and public health he details the five signature elements that cause voltage drops and unpacks the four proven techniques for increasing positive results or voltage gains and scaling great ideas to their fullest potential By understanding the science of scaling we can drive change in our schools workplaces communities and society at large Because a better world can only be built at scale _____ One of the best economics books I have ever read and an instant classic in behavioral economics Cass R Sunstein Robert Walmsley University Professor Harvard University and New York Times bestselling co author of Nudge Thought provoking and engaging A must read Daron Acemoglu Institute Professor at MIT and co author of Why Nations Fail and The Narrow Corridor

Get Funded!: The Startup Entrepreneur's Guide to Seriously Successful Fundraising John Biggs, Eric Villines, 2020-09-08 From a TechCrunch founder and award winning strategist comes the most comprehensive guide to the newest fundraising options for today s entrepreneurs Fundraising for startups has changed dramatically in the past decade

There was a time when VCs were rock stars and a founder with a big idea and a little drive could raise a few hundred thousand dollars to build a business. But those days are gone. In the aftermath of the Great Recession and a massive drop in tech investments, it's become harder and harder for founders to raise money. The good news? Today's entrepreneurs have more options than ever before with greater opportunities to get the ball rolling, get investors excited, and Get Funded. A comprehensive cutting-edge guide from tech journalist and entrepreneur John Biggs and communication strategist Eric Villines, *Get Funded* will enable you to create a solid business plan and a powerful story that investors respond to. Explore a wide range of funding options and find the ones that are right for you. Understand valuation and dilution. Plan, prepare, and deliver the perfect pitch. Raise money through grants, micro loans, micro donations, and crowdfunding. Take advantage of the latest online resources and financial tools. Filled with step-by-step strategies, ready-to-use resources, and on-the-ground insights, this is a must-read for every entrepreneur. Even if you've started a business before, you'll discover a whole new funding landscape with exciting tech-driven models including crowdfunding platforms like GoFundMe and Patreon, cryptocurrencies like Bitcoin, IEOs, Initial Exchange Offerings, micro loans, and micro donations, as well as more traditional tried-and-true methods. Beyond a road map to the current world of funding, *Get Funded* provides proven strategies for pitching, marketing, bootstrapping, and more. It's a complete 360-degree tool with easy-to-follow worksheets and online resources that will help you build a sustainable funding strategy that's right for your business and crucial to your success. Whether you're starting a food truck or a biotech startup, *Get Funded* has got you covered.

Better than Alpha: Three Steps to Capturing Excess Returns in a Changing World Christopher M. Schelling, 2021-02-22 A powerful new approach for giving up the ghost of alpha and building an investing portfolio that meets your objectives. The concept of beating markets is just a lot of hype. Successful investors don't find alpha; they find value, and that's what this book helps you do. *Better Than Alpha* provides the perspective, insights, and tools you need to retrain your focus away from searching for alpha and toward actions that produce superior investment outcomes. Chris Schelling explains why strategies based on beating the markets are doomed to failure and provides a simple three-step framework for making better investment decisions. Behavior smart, thinking Process smart, habits Organization smart, governance He explains why the search for alpha is destined to fail, the major role behavioral finance plays in so much wasted time, effort, and money, and most important, how to avoid common mistakes and maximize your efforts. You'll gain a deeper understanding of what drives investment returns, how superstar investment managers generated excess returns in the past, and why strategies that worked in the past don't necessarily make sense today. Whether you're responsible for generating revenue streams for pensions, endowments, or foundations, mitigating insurance losses, serving as an investment consultant, or any other institutional-level investing, *Better Than Alpha* walks you through the process of minimizing the impacts of behavioral biases and making decisions that create a higher probability of meeting your objectives, whatever they may be.
