the Knowledge Unlatched programme and is available on [www.bloomsburycollections.com](http://www.bloomsburycollections.com) We need to talk about  
Hippocrates Current scholarship attributes none of the works of the Hippocratic corpus to him and the ancient biographical  
traditions of his life are not only late but also written for their own promotional purposes Yet Hippocrates features powerfully  
in our assumptions about ancient medicine and our beliefs about what medicine and the physician himself should be In both  
orthodox and alternative medicine he continues to be a model to be emulated This book will challenge widespread  
assumptions about Hippocrates and in the process about the history of medicine in ancient Greece and beyond and will also  
explore the creation of modern myths about the ancient world Why do we continue to use Hippocrates and how are new  
myths constructed around his name How do news stories and the internet contribute to our picture of him And what can this  
tell us about wider popular engagements with the classical world today in memes quotes and online     **Instructor** ,1992
