Official CPC Certification Study Guide ,2017 **How to Localize Marxism in China** Guo Jianning,2022-12-30 This book explores frontier issues concerning the localization of Marxism in China by examining historical processes cultural implications and contemporary perspectives on this process of indigenization Emerging in the 1840s in Germany Marxism has evolved from a German European and Western idea into a Chinese Asian and Eastern one

This title seeks to answer the question of how Marxism has been adapted to the Chinese context and how it migrated the regions. The first three chapters chart the history of the dissemination of Marxism to adapt to Chinese conditions across three periods: revolutionary times before 1949, the period of socialist construction after 1949, and the reform and opening up since 1978. The subsequent two chapters analyze the experience of the development of socialism with Chinese characteristics, featuring synergistic integration with traditional Chinese culture and the combining of the basic principles of Marxism and China's real life situation. The final chapter advances suggestions on how to further promote the localization of Marxism and how to develop contemporary Chinese Marxism faced with new historical conditions. The book will appeal to scholars, students, and general readers interested in contemporary Marxism, Marxism in China, and contemporary Chinese history, politics, and society.
