But they don't think they can offer higher pay and more motivating work without hurting the bottom line. Most business leaders want to win with customers but their companies are hobbled by a host of service and operational problems largely driven by high employee turnover. Turnover that's partly driven by low pay. It is indeed a vicious cycle and Zeynep Ton is here to show you the way out. Why good jobs combined with strong operations lead to higher productivity and increased competitiveness for the business. And why more than ever in a world with tight labor markets failing to provide good jobs will catch up with you and threaten your business. As the leading scholar on good jobs and president of the Good Jobs Institute, Ton has helped executives at many companies implement a good jobs system. With expertise drawn from spending time on the front lines with workers and their managers, she knows what's keeping most companies mired in mediocrity and how implementing a good jobs system makes them more competitive, more resilient and more likely to attract and retain loyal customers and dedicated employees. Practical, prescriptive and often provocative, *The Case for Good Jobs* is essential reading for company leaders who want to choose excellence.
