*Podcast Journalism* David Dowling, 2024-03-19 Runner up 2025 Tankard Book Award Association for Education in Journalism and Mass Communication. Podcasting's stratospheric rise has inspired a new breed of audio reporting. Offering immersive storytelling for a binge-listening audience, as well as reaching previously underserved communities, podcasts have become journalism's most rapidly growing digital genre, buoying a beleaguered news industry. Yet many concerns have been raised about this new medium, such as the potential for disinformation, the influence of sponsors on content, the dominance of a few publishers and platforms, and at times questionable adherence to journalistic principles. David O. Dowling critically examines how podcasting and its evolving conventions are transforming reporting and even reshaping journalism's core functions and identity. He considers podcast

reporting's most influential achievements as well as its most consequential ethical and journalistic shortcomings emphasizing the reciprocal influences between podcasting and traditional and digital journalism Podcasting both as a medium and a business has benefited from the blurring of boundaries separating news from entertainment editorial from advertising and neutrality from subjectivity The same qualities and forces that have allowed podcasting to bypass the limitations of traditional categories expand the space of social and political discourse and provide openings for marginalized voices have also permitted corporations to extend their reach and far right firebrands to increase their influence Equally attentive to the medium's strengths and flaws this is a vital book for all readers interested in how podcasting has changed journalism
