Clearing the Ice Trilogy Robyn M. Ryan, 2018-07-10 Contains the full editions of This Piece of My Heart This Piece of My Soul and This Piece of Our Being **Finance and Development, June 2017** International Monetary Fund. External Relations Dept., 2017-06-01 This paper focuses on millennials who are increasingly looking to find their way in the sharing economy a phenomenon made possible by the emergence of digital platforms that facilitate the matching of buyer and seller Jobs in the sharing economy like driving for Uber or Lyft help some millennials make ends meet even if such temporary gigs are a far cry from the fulltime jobs with traditional pension plans and other benefits their parents often enjoyed This generation also enthusiastically embraces the services of the sharing economy which provides access to everything from beds to cars to boats without the hassle of ownership Loath to buy big ticket items such as cars and houses millennials have sharply different spending habits from those of preceding generations Millennials confront obstacles to prosperity that their parents didn't face They are better educated than previous generations but in today's world that is not enough to guarantee financial success

Re-platforming the Airline Business Nawal K. Taneja, 2019-01-10 Airline business models continue to be shaped by powerful forces relating to customers complexities and regulators However at the same time there are emerging technologies that can help airlines cater to the needs of their changing customer bases and manage the complexities of the business In his previous books Nawal Taneja has deliberated on these forces and how the airline industry is poised for disruptive change that could come from within or outside of the industry He also discussed the point that the airline planning systems and process in use are neither contemporary nor sufficiently integrated to meet the changing needs of customers who now are looking for outcomes not products In Re platforming the Airline Business To Meet Travelers Total Mobility Needs Taneja not only reiterates the need for transformation of the airline business but provides a map of the transformational process This book proposes that different sectors of the aviation industry particularly airlines and airports should consider using not just a wide array of technologies Artificial Intelligence biometrics blockchain and the Internet of Things but also specifically designed customer centric platforms to make informed decisions and to develop and implement transformative strategies to meet travelers total mobility needs These technologies and platforms can enable airlines and airports to achieve scale and scope as well as agility and flexibility through strategic partnerships to offer intelligently aggregated travel related services right now Subsequently they will enable various members in the travel chain to provide solutions to travelers global mobility requirements effectively and with better experiences
