Oddities A Book Of Unexplained Facts:

Oddities Rupert Thomas Gould,1965 *Oddities* Rupert T. Gould,2013-10 This is a new release of the original 1945 edition **Oddities** Rupert Thomas Gould (Lt. Commander.),1945 **Less Is More** Donna J. Baumbach,Linda L. Miller,2006-06-05 Contains practical advice for updating a school library collection describing why it is important and how to use automation tools to make the job easier Oddities Rupert Thomas Gould,1928 Contains essays on disappearance of Franklin s ships after 1845 48 expedition The ships seen on the ice p 79 124 and on The Auroras and other doubtful islands p 191 247 which also discusses Dougherty s Island and Thompson Island A Natural History of Unnatural Things Daniel Cohen,1971 Contemporary Archival Fiction Elin Ivansson,2025-09-30 This book presents a synthesised framework for analysing archival poetics in multimodal literature examining case studies from twenty first century American fiction towards elucidating the archival turn in contemporary literature more broadly Ivansson turns her focus on multimodal archival fiction here understood as works which engage with archival practices of collecting and organising both verbal text and visual inclusions of fictional and factual archival material such as photographs sketches notes and newspaper clippings The volume brings together work from multimodality cognitive stylistics and narratology with archival studies to demonstrate how contemporary archival fiction engages with archival themes through multimodal design Case studies include works from Barbara Hodgson Leanne Shapton Valeria Luiselli and Jacob Garbe and Aaron A Reed The selected examples allow for a detailed exploration of how to analyse the multimodal composition and reader experience of archival poetics Furthermore these case studies also elucidate how such a framework can be applied more broadly to the analysis of fictional works thematically and structurally concerned with the archive or those that grapple with such areas of interest in contemporary research as materiality bookishness and ontological ambiguity This volume will appeal to students and scholars in multimodality stylistics American literature and literary studies **Time Restored** Jonathan Betts,2011-05-19 This is the story of Rupert T Gould 1890 1948 the polymath and horologist A remarkable man Lt Cmdr Gould made important contributions in an extraordinary range of subject areas throughout his relatively short and dramatically troubled life From antique clocks to scientific mysteries from typewriters to the first systematic study of the Loch Ness Monster Gould studied and published on them all With the title The Stargazer Gould was an early broadcaster on the BBC s Children s Hour when with his encyclopaedic knowledge he became known as The Man Who Knew Everything Not surprisingly he was also part of that elite group on BBC radio who formed The Brains Trust giving on the spot answers to all manner of wide ranging and difficult questions With his wide learning and photographic memory Gould awed a national audience becoming one of the era s radio celebrities During the 1920s Gould restored the complex and highly significant marine timekeepers constructed by John Harrison 1693 1776 and wrote the unsurpassed classic The Marine Chronometer its History and Development Today he is virtually unknown his horological contributions scarcely mentioned in Dava Sobel s bestseller Longitude The TV version of

Longitude in which Jeremy Irons played Rupert Gould did at least introduce Gould's name to a wider public. Gould suffered terrible bouts of depression resulting in a number of nervous breakdowns. These coupled with his obsessive and pedantic nature led to a scandalously reported separation from his wife and cost him his family, his home, his job and his closest friends. In this first ever biography of Rupert Gould, Jonathan Betts, the Royal Observatory Greenwich's Senior Horologist, has given us a compelling account of a talented but flawed individual. Using hitherto unknown personal journals, the family's extensive collection of photographs and the polymath's surviving records and notes, Betts tells the story of how Gould's early life, his naval career and his celebrity status came together as this talented Englishman restored part of Britain's and the world's most important technical heritage: John Harrison's marine timekeepers.

Enigmas : Another Book of Unexplained Facts Rupert Thomas Gould, 1969 International Journal of Parapsychology , 1965 Journal of the Society for Psychical Research Society for Psychical Research (Great Britain), 1963 **The Info Journal** , 1987 Encyclopedia of Strange and Unexplained Physical Phenomena Jerome Clark, 1993 Examines what is known about 150 physical phenomena including eyewitness accounts, photographs and other documentation of such things as UFOs, Noah's Ark, werewolves, crop circles and sea serpents.
