Education Studies: Issues & Critical Perspectives Kassem, Derek, Mufti, Emmanuel, Robinson, John, 2006-08-01 Education Studies is an essential text for Education Studies students. It provides a critical account of key issues in education today. Themed sections with introductions link the issues discussed in each chapter. Great Habits, Great Readers Paul Bambrick-Santoyo, Aja Settles, Juliana Worrell, 2013-05-29 A book that brings the habits of reading to life. Great readers are not made by genetics or destiny but by the habits they build. Habits that are intentionally built by their teachers. The early formal years of education are the key to reversing the reading gap and setting up children for success. But K-4 education seems to widen the gap between stronger and weaker readers, not close it. Today the Common Core further increases the pressure to reach high levels of rigor. What can be done? This book includes the strategies, systems, and lessons from the top classrooms that bring the habits of reading to life, creating countless quality opportunities for students to take one of the most complex skills we as people can know and to perform it fluently and easily. Offers clear teaching strategies for teaching reading to all students, no matter what level. Includes more than 40 video examples from real classrooms. Written by Paul Bambrick-Santoyo, bestselling author of *Driven by Data* and *Leverage Leadership*. Great Habits, Great Readers puts the focus on learning habits: reading habits, guided reading, and independent reading. NOTE: Content video and other supplementary materials are not included as part of the e-book file but are available for download after purchase. Reading Assessment and Instruction for All Learners Jeanne Shay Schumm, 2006-05-04 Weaving together the latest knowledge and best practices for teaching children to read, this indispensable text and professional resource provides a complete guide to differentiated instruction for diverse learners. Uniquely integrative, the book places the needs of English language learners and students with disabilities front and center instead of treating them as special topics. Accessible chapters on each of the core components of literacy clearly demonstrate how to link formal and informal assessment to evidence-based instruction. Special features include Research Briefs, Tech Tips, Internet Resources, Reflection and Action Questions, and dozens of reproducible student activities and assessment tools. **Houghton Mifflin Reading**, 2003 Grade 1 Best Practices in Literacy Instruction Lesley Mandel Morrow, Ernest Morrell, Heather Kenyon Casey, 2023-05-24 This authoritative text and PreK-12 teacher resource is now in a substantially revised seventh edition with 80% new material foregrounding advances in inclusive, equitable instruction. Teachers are guided through every major component of reading as well as assessment, motivation, teaching bilingual learners, strengthening connections with families and communities, and more. The book presents principles and strategies for teaching literature and nonfiction texts, organizing and differentiating instruction, supporting struggling readers, and promoting digital literacy. Pedagogical features include chapter opening bulleted previews of key points, reviews of the research evidence, recommendations for best practices in action with examples from exemplary classrooms, and end-of-chapter engagement activities.
