The WISE Journal Klaudio Muca, Carsten Primdahl, 2022-03-09 The WISE Journal investigates the dynamic relationship between architecture, humans and human activities in learning and work environments. The publication brings into conversation different scientific disciplines and some of the world's foremost thinkers. This extensive mixed media journal offers its readers food for thought on how to translate this cross disciplinary exploration into fulfilling long lasting architecture intentionally stimulating spaces that support productivity, learning and well being. The e book contains a series of interviews in video and podcast format alongside numerous illustrations that support articles, case studies and essays. For in depth readers the publication provides hundreds of pages of text with thorough references to peer reviewed articles. Education institutions should remember that their ultimate customer is not the students nor their parents but society at large. The WISE Journal beautifully demonstrates the intricate impact that education has on space, skills and society. Ben Nelson, Founder Minerva University. The WISE Journal has identified a set of important topics whose relationship to one another can benefit from appropriate examples and thoughtful reflections. Howard Gardner, Harvard Graduate School of Education. The WISE Journal brings into conversation the many diverse disciplines involved in the design of intentional spaces. This cross pollination of research theory, insights and practice is essential to advancing architecture for wellbeing and lifelong learning. Susan Magsamen, Executive Director International Arts Mind Lab.

New Methods of Market Research and Analysis G. Scott Erickson, 2017-10-27 *New Methods of Market Research and Analysis* prepares readers for the new reality posed by big data and marketing analytics. While connecting to traditional research approaches such as surveys and focus groups, this book shows how new technologies and new analytical capabilities are rapidly changing the way marketers obtain and process their information. In particular, the prevalence of big data systems, always monitoring key performance indicators, trends toward more research using observation or observation and communication together. New technologies such as mobile apps, geo locators and others, as well as the deep analytics allowed by cheap data processing and storage, are all covered and placed in context. This book can be used as a supplement to a traditional marketing research text or on its own.

Disruptive Technology in Human Resource Management Sumedha Dutta, Asha Thomas, Puja Khatri, 2025-03-25. Technological breakthroughs obliterate established methods and change entire industries. Disruptive technologies are seen as drivers of various business processes and one area that these technologies have had a profound impact on is human resource management (HRM).
