Social TV Cory Barker, 2022-06-27 Winner of the 2023 SCMS Media Industries Scholarly Interest Group Outstanding Book Award sponsored by the Center for Entertainment Media Industries. On March 15, 2011, Donald Trump changed television forever. The Comedy Central Roast of Trump was the first major live broadcast to place a hashtag in the corner of the screen to encourage real-time reactions on Twitter, generating more than 25,000 tweets and making the broadcast the most-watched roast in Comedy Central history. The *trumproast* initiative personified the media and tech industries' utopian vision for a multi-screen and communal live TV experience. In *Social TV: Multi-Screen Content and Ephemeral Culture*, author Cory Barker reveals how the US television industry promised but failed to deliver a social media revolution in the 2010s to combat the imminent threat of on-demand streaming video. Barker examines the rise and fall of Social TV across press coverage, corporate documents, and an array of digital ephemera. He demonstrates that despite the talk of disruption, the movement merely aimed to exploit social media to reinforce the value of live TV in the modern attention economy. Case studies from broadcast networks to tech start-ups uncover a persistent focus on community that aimed to monetize consumer behavior in a transitional industry period. To trace these unfulfilled promises and flopped ideas, Barker draws upon a unique mix of personal Social TV experiences and curated archives of material that were intentionally marginalized amid pivots to the next big thing. Yet in placing this now-forgotten material in recent historical context, *Social TV* shows how the era altered how the industry pursues audiences. Multi-screen campaigns have shifted away from a focus on live TV and toward all-day content streams. The legacy of Social TV then is the further embedding of media and promotional material onto every screen and into every moment of life.

Beyond Hashtags Sarah Florini, 2019-12-03 How black Americans use digital networks to organize and cultivate solidarity. Unrest gripped Ferguson, Missouri, after Mike Brown, an unarmed black teenager, was shot and killed by Officer Darren Wilson in August 2014. Many black Americans turned to their digital and social media networks to circulate information, cultivate solidarity, and organize during that tumultuous moment. While Ferguson and the subsequent

protests made black digital networks visible to mainstream media these networks did not coalesce overnight They were built and maintained over years through common everyday use Beyond Hashtags explores these everyday practices and their relationship to larger social issues through an in depth analysis of a trans platform network of black American digital and social media users and content creators In the crucial years leading up to the emergence of the Movement for Black Lives black Americans used digital networks not only to cope with day to day experiences of racism but also as an incubator for the debates that have since exploded onto the national stage Beyond Hashtags tells the story of an influential subsection of these networks an assemblage of podcasting independent media Instagram Vine Facebook and the network of Twitter users that has come to be known as Black Twitter Florini looks at how black Americans use these technologies often simultaneously to create a space to reassert their racial identities forge community organize politically and create alternative media representations and news sources Beyond Hashtags demonstrates how much insight marginalized users have into technology
