## **Mine Yours Human Rights For Kids:**

**Mine & Yours** Joy Wilt Berry, Amnesty International, 2005 Produced in association with Amnesty International and written by bestselling author Joy Berry Mine Yours condenses the United Nations Conventions on the Rights of the Child into 13 yet profound rights. Throughout the book illustrations by award winning artist Nicole Richardson depict colourful scenes from around the world that teach children about diverse global customs, animals and regions and help them understand their rights and respect those of other children around the globe

**The Human Rights** Valentin Matcas, 2016-04-20 People believe that governments and systems of justice give them the human rights through specific rules, laws and regulations but this is never the case. Because your human rights are yours continuously as they are innate since you are a living human being by nature. Authorities may give you privileges yet rights and privileges are separate concepts. In fact, authorities take away your human rights and many times they do so with your full agreement in a trivial manner. Since surprisingly you cannot have authorities and human rights simultaneously. Should authorities not take away your human rights mostly when you break the law? No, since human rights are innate as this is your human nature. Even more human rights are of the third intelligent human level while laws, beliefs, privileges, corporations and jurisdictions are of the first fictitious level, remaining incompatible. While authorities write these laws themselves to infringe the human rights, Everybody knows it and everybody makes it possible losing the human rights while also losing themselves and their loved ones. So you always wave your human rights and fall into their jurisdiction where they own you entirely and they do to you as they please. And it always happens with humans, souls and everyone else. But why exactly do people go against people continuously, losing themselves and the entire world? It always depends on the interaction between people because sometimes this is harmonious and sometimes harmful. It is always preferred to have harmony in this world yet when you want to have more than others do you cannot have it in a harmonious, egalitarian manner but only by force called robbery. And when you persist to desire more than others you have to change the entire world on your behalf as tyrants do. Yet this is not the human world anymore as it is not the human meaning but only a fictitious enterprise where humans become merchandise themselves while fighting and exploiting themselves in a disconnected manner. Because many times people create entire wars to take what others have in an organized crime while other times people use fictitious schemes and trickery to determine others to hand them everything including themselves which is the same organized crime. And again this is not at all the human meaning yet it is always possible through agreements through their agreement to give you everything while even calling you their great king, wonderful master, good lord, helpful patron or wonderful chief as you are always their tyrant serving you for life. While you are not a human being anymore and neither are they. With the human rights always present to assure the continuous human freedom meaning and fulfillment in life and in this world and with an entire world fictitious under oath and serving vehemently a multitude of tyrants taking everything for themselves so what exactly is going on? This book helps you maintain

control throughout life while protecting yourself helping you understand your status rights privileges and place in life and in this world further helping you become more aware and more responsible Otherwise you end up with your entire human condition altered and therefore with all human rights infringed Glamour ,2007 *Pagan Portals - Ancestral Healing*

Trevor Greenfield,2020-07-31 The origin story of every culture contains a description of animism humans in direct relationship with the land and through the reciprocity of that connection evolving together The livelihood of humans and Nature is intertwined If one ails so does the other History is littered with stories of losing that connection and the toll this takes in the form of humans against each other humans against Nature Between colonization conscription into the Church imperialization and industrialization we have created systems of destruction that have decimated our relationship to the land and to each other From within these systems institutionalized racism sexism and all aspects of othering became embedded in our political and social structures As modern pagans we recognize the need to tear down these structures and build supportive inclusive new ones Our spiritual paths are Nature based and Ancestor honoring the rituals of which heal land wounds and ancestral trauma to create sacred recovery and activism for all This anthology presents modern pagan activists working through their spiritual lines to do better Edited by Trevor Greenfield publisher of Moon Books and editor of Naming the Goddess with contributory essays from eleven pagan voices Children's Writer Guide to 2006 Susan M.
