Fortifications of the Western Front 1914-18 Paddy Griffith, 2013-08-20 Following the early battles of 1914 along the Marne and in the Ypres salient World War I rapidly changed from a war of movement into one of attrition with the opposing sides entrenching themselves in a line of fortified positions from the Flanders coastline to the Swiss border This volume details the different styles of fortification used on the Western Front throughout the course of the war from the early ditches of 1914 to the complicated systems of 1918 It explains the development of the defence in depth German system and the British reaction to it as well as illustrating the importance of the pre war forts particularly around Verdun

Macedonian Armies after Alexander 323-168 BC Nicholas Sekunda, 2012-11-20 The death of Alexander the Great in 323 BC threw the Macedonians into confusion there was no capable heir and no clear successor among the senior figures in Alexander's circle For well over a century the largely mercenary armies of Alexander's successors imposed their influence over the whole of the Near East while absorbing local military practices After Rome's decisive defeat of Carthage in 202 BC Macedonia came under increasing pressure from the Romans Three wars between the two powers culminated in the Roman victory at Pydna in 168 BC which laid Alexander's empire to rest and established Roman hegemony in the Near East Drawing upon a wide array of archaeological and written sources and written by a noted authority on the Hellenistic period this survey of the organization battle history and appearance of the armies of Alexander's successors is lavishly illustrated with specially commissioned full colour artwork

Pueblo Peoples on the Pajarito Plateau David E. Stuart, 2011-02-16 This lively overview of the archaeology of northern New Mexico's Pajarito Plateau argues that Bandelier National Monument and the Pajarito Plateau became the Southwest's most densely populated and important upland ecological preserve when the great regional society centered on Chaco Canyon collapsed in the twelfth century Some of Chaco's survivors moved southeast to the then thinly populated Pajarito Plateau where they were able to survive by fundamentally refashioning their society David E Stuart an anthropologist archaeologist known for his stimulating overviews of prehistoric settlement and subsistence data argues here that this re creation of ancestral Puebloan society required a fundamental rebalancing of the Chacoan model Where Chaco was based on growth grandeur and stratification the socioeconomic structure of Bandelier was

characterized by efficiency moderation and practicality Although Stuart s focus is on the archaeology of Bandelier and the surrounding area his attention to events that predate those sites by several centuries and at substantial distances from the modern monument is instructive Beginning with Paleo Indian hunter gatherers and ending with the large villages and great craftsmen of the mid sixteenth century Stuart presents Bandelier as a society that in crisis relearned from its pre Chacoan predecessors how to survive through creative efficiencies Illustrated with previously unpublished maps supported by the most recent survey data this book is indispensable for anyone interested in southwestern archaeology **Library of**

Congress Catalogs Library of Congress,1980 *Osteosarcoma* Takafumi Ueda,Akira Kawai,2016-02-19 This book reviews the brilliant progress made in the past three decades in clinical outcomes for osteosarcoma patients treated with a multidisciplinary approach including limb salvage surgery combined with neoadjuvant multidrug chemotherapy and aggressive management of pulmonary metastasis Osteosarcoma was a miserable disease for adolescents and young adults until the early 1970s with a survival rate that was less than 10 15% even after amputation for affected limbs because of the progression of pulmonary metastasis With the development of neoadjuvant chemotherapy for osteosarcoma including high dose methotrexate doxorubicin cisplatin and ifosfamide during the late 1970s and the 1980s however the prognosis has dramatically improved Limb salvage surgery for patients with extremity osteosarcoma is now a gold standard surgical procedure for more than 90% of patients with localized disease Additionally aggressive pulmonary metastasectomy for patients with lung metastasis from osteosarcoma has contributed to improvement of their survival More recently carbon ion radiotherapy has also been introduced for patients with unresectable osteosarcoma of the trunk as in the spine and pelvis In this volume the author provides valuable descriptions of an important new treatment modality for a multidisciplinary approach for osteosarcoma patients **The Cultivator & Country Gentleman** ,1880 **Stirling Bridge and Falkirk**

1297-98 Peter Armstrong,2012-09-20 A slim illustrated volume on the two key battles of William Wallace the legendary Scottish rebel The death of the last of the Scottish royal house of Canmore in 1290 triggered a succession crisis Attempts to undermine Scottish independence by King Edward I of England sparked open rebellion culminating in an English defeat at the hands of William Wallace at Stirling Bridge in 1297 Edward gathered an army marched north and at Falkirk on 22 July 1298 he brought Wallace s army to battle Amid accusations of treachery Wallace s spearmen were slaughtered by Edward s longbowmen then charged by the English cavalry and almost annihilated Complete with illustrations including bird s eye view maps of each battle Peter Armstrong details the events up until Wallace was captured and executed in 1305 and demonstrates that the flame of rebellion he had ignited could not be extinguished *National Geographic* ,2003

Paraguayan Paper Money Dale Allan Seppa,1973 **MenoWars** Fiona Clark,2025-09-25 First we were told we all needed to have HRT to remain interesting for our husbands Then we were told it was going to give us cancer and put us in an early grave Next we were told HRT was safe and we had to take it or we d all end up with crippling brain fog quitting our

jobs and descending into dementia as the economy collapsed around us On the other side of the fence are those who argue that menopause is natural it doesn't need treating and a cold water swim could fix everything No wonder we're more confused than ever Why has this happened What does the evidence say MenoWars explains why menopause is such a political hot potato taking into account the history of gender bias in health and health research the void and how it's filled and what the evidence actually says It answers questions like will HRT prevent dementia what you can do help your brain will HRT prevent heart disease what you can do to help your heart and much more MenoWars explains the silent changes you can't see and which need to be sorted and why Importantly it not only shows why we're arguing it outlines where the science is heading so we can live longer better healthier lives in perimenopause and throughout the decades we spend in post menopause
