## **Mossad Operations Plane Hijack:**

Coalitions Between Terrorist Organizations Ely Karmon, 2005-06-01 This volume proposes some theories on the conditions that favor the formation of coalitions between terrorist organizations and how they function within the changing international system These theories are tested against empirical data on actual cooperation between European and Palestinian terrorist organizations from 1968 to 1990 and cooperation between European left wing terrorist organizations the phenomenon known as Euro terrorism from 1984 to 1988 These findings form the basis of a broader theory concerning cooperation and coalitions between organizations involved in international terrorism Finally an attempt is made to verify whether the new terrorist players driven at least theoretically by religious motivation will imitate the behavior of the ideological or nationalist organizations and to test whether the theories concerning cooperation and coalitions developed in this volume apply to the new reality
