**Workers' Compensation Managed Care Sourcebook** ,1999      BNA's Health Care Policy Report ,1997      **The Ethos of Medicine in Postmodern America** Arnold R. Eiser,2013-12-24 Has postmodern American culture so altered the terrain of medical care that moral confusion and deflated morale multiply faster than both technological advancements and ethical resolutions The Ethos of Medicine in Postmodern America is an attempt to examine this question with reference to the cultural touchstones of our postmodern era consumerism computerization corporatization and destruction of meta narratives The cultural insights of postmodern thinkers such as such as Foucault Deleuze and Guattari Lyotard Baudrillard Bauman and Levinas help elucidate the changes in healthcare delivery that are occurring early in the twenty first century Although only Foucault among this group actually focused his critique on medical care itself their combined analysis provides a valuable perspective for gaining understanding of contemporary changes in healthcare delivery It is often difficult to envision what is happening in the psychosocial cultural dynamic of an epoch as you experience it Therefore it is useful to have a technique for refracting those observations through the lens of another system of thought The prism of postmodern thought offers such a device with which to view the eclipse of changing medical practice Any professional practice is always thoroughly embedded in the social and cultural matrix of its society and the medical profession in America is no exception In drawing upon of the insights of key Continental thinkers such and American scholars this book does not necessarily endorse the views of postmodernism but trusts that much can be learned from their insight Furthermore its analysis is informed by empirical information from health services research and the sociology of medicine Arnold R Eiser develops a new understanding of healthcare delivery in the twenty first century and suggests positive developments that might be nurtured to avoid the barren Silicon Cage of corporate bureaucratized medical practice Central to this analysis are current healthcare issues such as the patient centered medical home clinical practice guidelines and electronic health records This interdisciplinary examination reveals insights valuable to anyone working in postmodern thought medical sociology bioethics or health services research

**Health Care Standards** ,1996      **Nursing Case Management** Suzanne K. Powell,1996      **Caring for Profit** Colleen Fuller,Canadian Centre for Policy Alternatives,1998 Caring For Profit traces how Canada s 77 billion a year health care industry is turning away from its original mandate of providing the best possible medical care to Canadians and how multinational capital is forcing its way into our non profit health care system In Caring For Profit Colleen Fuller traces alliances that were struck between private insurers and the medical profession during the 1950s and 1960s to defeat socialized medicine These alliances survived the establishment of medicare in Canada in 1968 and have been strengthened by new forces emerging in an era of globalization Instead of a health care system focused on providing the highest quality of care to the greatest number of Canadians the system is increasingly dominated by financial giants more concerned with

consolidations mergers acquisitions and higher profit margins Caring for Profit is a who's who of key people and corporations making money in Canada's health care sector and a portrait of the strategies and alliances that threaten to replace the principles of medicare with the dictates of the stock market     **Disease Management Directory & Guidebook** ,1999
