This book will help hunters know how to locate deer in existing conditions each day and will also arm them with highly successful archery and firearms tactics and techniques for each rut phase. Ultimately the content will successfully provide enthusiasts with the information and skills that will make them more successful hunters regardless of hunting conditions. Written by a nationally recognized big game expert the content is based on his more than 20 years of research studying how trophy whitetails behave in a range of conditions. The content contains several chapters on biology and behavior of North America's most popular big game species and several different tactics and techniques for scouting observing locating patterning and hunting. All techniques were developed by the author when he was professional hunting guide and outfitter for more than 15 years. **Figuring Age** Kathleen Woodward, 1999-03-22 Figuring Age engages the virtually invisible subject of older women in western culture. Like other markers of social difference age is given meaning by a culture. Yet unlike gender and race the subjects of age and aging have received little sustained attention. Central to Figuring Age is the crucial question of how women are aged by culture. How are older women represented in a visual culture that is dominated by images of youth in television film and life performance. How do psychoanalysis rejuvenation therapy and hormone replacement therapy the fashion system cosmetic surgery and midlife bodybuilding shape our views of aging as well as of the older body itself. What is the timing of aging. To what extent is aging a culturally induced trauma
