Box Office Usa Returns:

Return of the Epic Film Andrew Elliot, 2015-03-05 With the success of *Gladiator* both critics and scholars enthusiastically announced the return of a genre which had lain dormant for thirty years. However this return raises important new questions which remain unanswered: Why did the epic come back and why did it fall out of fashion? Are these the same kinds of epics as the 1950s and 60s or are there aesthetic differences? Can we treat *Kingdom of Heaven*, *300* and *Thor* indiscriminately as one genre? Are non-Western histories like Hero and Mongol epics too? Finally what precisely do we mean when we talk about the return of the epic film and why are they back? *The Return of the Epic Film* offers a fresh way of thinking about a body of films which has dominated our screens for a decade. With contributions from top scholars in the field the collection adopts a range of interdisciplinary perspectives to explore the epic film in the twenty first century. *Guinness World Records 2015*

Brian Yecies, Aegyung Shim, 2015-12-22 The rapid development of Korean cinema during the decades of the 1960s and 2000s reveals a dynamic cinematic history which runs parallel to the nation's political, social, economic and cultural transformation during these formative periods. This book examines the ways in which South Korean cinema has undergone a transformation from an antiquated local industry in the 1960s into a thriving international cinema in the 21st century. It investigates the circumstances that allowed these two eras to emerge as creative watersheds and demonstrates the forces behind Korea's positioning of itself as an important contributor to regional and global culture and especially its interplay with Japan, Greater China and the United States. Beginning with an explanation of the understudied operations of the film industry during its 1960s take off it then offers insight into the challenges that producers, directors and policy makers faced in the 1970s and 1980s during the most volatile part of Park Chung-hee's authoritarian rule and the subsequent Chun Doo-hwan military government. It moves on to explore the film industry's professionalization in the 1990s and subsequent international expansion in the 2000s. In doing so it explores the nexus and tensions between film policy, producing, directing, genre and the internationalization of Korean cinema over half a century. By highlighting the recent transnational turn in national cinemas

this book underscores the impact of developments pioneered by Korean cinema on the transformation of Planet Hallyuwood. It will be of particular interest to students and scholars of Korean Studies and Film Studies. **Film Studies** Glyn Davis, Kay Dickinson, Lisa Patti, Amy Villarejo, 2015-02-20. *Film Studies A Global Introduction* reroutes film studies from its Euro American focus and canon in order to introduce students to a medium that has always been global but has become differently and insistently so in the digital age. Glyn Davis, Kay Dickinson, Lisa Patti and Amy Villarejo's approach encourages readers to think about film holistically by looking beyond the textual analysis of key films. In contrast, it engages with other vital areas such as financing, labour, marketing, distribution, exhibition, preservation, and politics, reflecting contemporary aspects of cinema production and consumption worldwide. Key features of the book include clear definitions of the key terms at the foundation of film studies; coverage of the work of key thinkers explained in their social and historical context; a broad range of relevant case studies that reflect the book's approach to global cinema, from Italian white telephone films to Mexican wrestling films; innovative and flexible exercises to help readers enhance their understanding of the histories, theories, and examples introduced in each chapter; an extensive Interlude introducing readers to formal analysis through the careful explication and application of key terms; a detailed discussion of strategies for writing about cinema. *Film Studies A Global Introduction* will appeal to students studying film today and aspiring to work in the industry as well as those eager to understand the world of images and screens in which we all live. **Screen Digest**, 1998 **Box Office**, 1958

Bollywood's India Priya Joshi, 2015-03-03. *Bollywood is India's most popular entertainment and one of its most powerful social forces. Its blockbusters contest ideas about state formation, capture the nation's dispersed anxieties and fabricate public fantasies of what constitutes India. Written by an award-winning scholar of popular culture and postcolonial modernity, Bollywood's India analyzes the role of the cinema's most popular blockbusters in making, unmaking, and remaking modern India. With dazzling interpretive virtuosity, Priya Joshi provides an interdisciplinary account of popular cinema as a space that filters politics and modernity for its viewers. Themes such as crime and punishment, family and individuality, vigilante and community capture the diffuse aspirations of an evolving nation. Summoning India's tumultuous 1970s as an interpretive lens, Joshi reveals the cinema's social work across decades that saw the decline of studios, the rise of the multi-starrer genre, and the arrival of corporate capital and new media platforms. In elegantly crafted studies of iconic and less familiar films, including *Awaraz* (1951), *Ab Dilli Dur Nahin* (1957), *Deewaar* (1975), *Sholay* (1975), *Dil Se* (1998), *A Wednesday* (2008), and *3 Idiots* (2009), Joshi powerfully conveys the pleasures and politics of Bollywood blockbusters. **The International Film Index,***

The U.S. Cable Television Industry, 1948-1995 Thomas R. Eisenmann, 1998. Chandler observed that under

managerial capitalism salaried managers tended to pursue policies that promoted the long term stability and growth of their enterprises The U S cable television industry provides a case study of how managers responded when stability and growth were mutually consistent objectives and when they were mutually exclusive From the late 1950s through the early 1980s agent led newspaper publishers and television broadcasters invested aggressively in the cable business Cable provided an outlet for reinvesting profits from their core businesses where growth opportunities were limited At the same time these media companies increased their long term stability by diversifying into cable because cable threatened to cannibalize their core businesses Beginning in the mid 1980s however investing in cable implied a tradeoff between stability and growth objectives As a wave of mergers swept the cable industry agent led companies avoided acquisitions Managers were concerned that acquisitions would dilute earnings and thus depress their stock prices and that diverting capital from other divisions would precipitate disruptive internal conflict Confronting an increasingly turbulent competitive environment during the first half of the 1990s agent led companies were much more likely to divest cable assets than owner managed firms In agent led companies managers believed that their cable units would require massive capital investments and they were reluctant to bet the company on a business facing so much competitive technological and regulatory uncertainty Owner managers emotionally attached to the cable industry and to the firms they had built and often harboring dynastic ambitions were more reluctant to sell they were willing to gamble on growth
