*Arab Spring and Peripheries* Daniela Huber, Lorenzo Kamel, 2018-10-11 The emerging literature on the so called Arab Spring has largely focused on the evolution of the uprisings in cities and power centres In order to reach a more diversified and inner understanding of the Arab Spring this edited book examines how peripheries have reacted and contributed to the historical dynamics at work in the Middle East and North Africa It rejects the idea that the Arab Spring is a unitary process and shows that it consists of diverse Springs which differed in terms of opportunity structure strategies of a variance of actors and outcomes This book looks at geographical religious gender and ethnical peripheries conceptualizing periphery as a dynamic structure which can expand and contract It shows that the seeds for changing the face of politics and polities are within peripheries themselves Focusing on the voices of peripheries can therefore be a powerful tool to de simplify the reading of the Arab Spring and to reshape the paradigmatic schemes through which to look at this part of the world This book was published as a special issue of Mediterranean Politics
